

2026
WORKBOOK

LIFESYSTEMS

A photograph of a person sitting in a hammock, silhouetted against a bright, golden sunset. The person is wearing a cap and a jacket. The hammock is suspended from a tree, and the background shows a field and a cloudy sky.

FREEDOM TO GO FURTHER

Nothing impacts a great adventure quicker than falling ill or sustaining an injury. When you're outside your comfort zone or in an unfamiliar part of the world, the risks mount up. With Lifesystems® at your side, you can travel with confidence. We have protected adventurers and explorers for 30 years against whatever the elements and fate have thrown at them. We work with some of today's leading expedition and emergency medical experts so that, through constant research and scientific innovation, we can help you survive your toughest adventures.

FIRST AID KITS

The iconic red cases are synonymous with Lifesystems first aid kits. Each pack incorporates the use of hard wearing ripstop fabrics and waterproof zips which provide that extra level of durability and protection. The smaller packs feature belt loop attachments and the larger versions have our excellent Quick-Find system to allow components to be located easily.

OUTDOOR FIRST AID KITS

Climbers, mountaineers and trekkers will inevitably find themselves off the beaten track from time to time. If any injuries are sustained, it is important to have a well equipped first aid kit to hand.
