 MONTANE®

Guaranteed for Life

Because that's what
it's built for

— Mountaineering

Mountaineering demands gear that performs when it matters most.

High-altitude climbs push you into exposed environments where conditions shift fast; wind, snow, freezing temperatures, and physical extremes. That's why a layering system must work seamlessly: managing moisture to keep you dry, providing insulation that breathes with movement, and delivering durable protection against storms when performance becomes survival. At Montane, every seam, zip, and silhouette exists for a reason. Gear that performs in exposure becomes protection, and protection is what you depend on when the stakes are high.

Hike

Hiking calls for versatility and protection on every mile of the trail.

From sudden downpours to steep climbs, your layers must move with you; keeping you dry, warm, and free to push further. Breathable fabrics wick away effort, lightweight insulation holds in warmth without slowing you down, and durable outer protection stands strong against wind and rain when the weather turns.

VIA

Trail running demands layers engineered for performance and minimal weight.

From frosted ridgelines to gusting winds and sudden snow, your system wicks moisture, regulates thermal comfort, and provides ultralight, breathable insulation that moves with every stride. Advanced protection from wind and precipitation keeps you focused on pace, not the elements.

Performance Life

Built for a life in motion.

Performance clothing designed to move seamlessly from city to trail, combining technical fabrics with everyday wearability. Moisture-wicking, breathable, and lightweight, it adapts to changing conditions. For those who expect more from a life outside.

WOMEN'S ALTA XT JACKET

PRODUCT CODE: **FAXTJ**

GINKGO GOLD

LAVA

Ultralight, next-gen waterproof jacket, built for the extreme and engineered for long lasting weather protection.

MATERIALS

- GORE-TEX® PRO PRODUCTS
- Plain weave recycled nylon face made from 70 denier yarns with a smooth face, dull optic, excellent abrasion & tear resistance and a solution dyed micro grid woven backer. Utilising Gore's ePE membrane providing a non-fluorocarbon water repellent and membrane technology

FEATURES

- PIVOT 3 fully adjustable, helmet compatible hood system with integrated front mountain safe adjustment points, rear speed adjustment and additional hood volume reduction
- SEW-FREE fully bonded pocket and zip installs reduce construction and weight, improve comfort, breathability and packability
- A 25% reduction of seam tape improves FGB (Full Garment Breathability) and durability, reduces weight and construction *compared to previous equivalent products average
- Built on the Mountain Fit block with added volume to allow for technical layering systems

WEIGHT (APPROX):

395g

SIZES	XS/UK8	S/UK10	M/UK12	L/UK14	XL/UK16
-------	--------	--------	--------	--------	---------

WOMEN'S ALTA LITE JACKET

PRODUCT CODE: **FALLJ**

TIGERLILY

Lightweight waterproof jacket for technical mountain terrain with full breathability for all-year round use.

MATERIALS

- GORE-TEX® PRO PRODUCTS
- Plain weave recycled nylon face made from 40 denier yarns with a smooth face, full dull lustre, and a solution-dyed micro grid woven backer. Utilising Gore's ePE membrane providing a non-fluorocarbon water repellent and membrane technology

FEATURES

- PIVOT 3 fully adjustable, helmet compatible hood system with integrated front mountain safe adjustment points, rear speed adjustment and additional hood volume reduction
- SEW-FREE fully bonded pocket and zip installs reduce construction and weight, improve comfort, breathability and packability - constructed to prioritise protection and performance
- A 25% reduction of seam tape improves FGB (Full Garment Breathability) and durability, reduces weight and construction *compared to previous equivalent products average
- Built on the Mountain Fit block with added volume to allow for technical layering systems

WEIGHT (APPROX):

350g

SIZES	XS/UK8	S/UK10	M/UK12	L/UK14	XL/UK16
-------	--------	--------	--------	--------	---------

WOMEN'S ALTA PANTS

PRODUCT CODE: **FALTP**

ECLIPSE BLUE

Alpine pants built for the most demanding ascents and engineered for long lasting weather protection.

MATERIALS

- GORE-TEX® PRODUCTS WITH GORE PERFORMANCE TECHNOLOGY Plain weave recycled nylon face made from 70 denier yarns with a smooth face, dull optic, excellent abrasion & tear resistance and a nylon tricot backer. Utilising Gore's ePE membrane providing a non-fluorocarbon water repellent and membrane technology
- SCHOELLER KEPROTEC Lightweight and hard-wearing. Enhanced abrasion resistance.

FEATURES

- SEW-FREE fully bonded pocket and zip installs reduce construction and weight, improve comfort, breathability and packability - constructed to prioritise protection and performance
- A 25% reduction of seam tape improves FGB (Full Garment Breathability) and durability, reduces weight and construction *compared to previous equivalent products average
- OFFSET seam intersections improve construction, durability and comfort
- Mountain Fit with added volume to allow for technical layering systems, and built in articulation that prioritises dynamic movement

WEIGHT (APPROX):

550g / 19.4oz

SIZES	XS/UK8	S/UK10	M/UK12	L/UK14	XL/UK16
-------	--------	--------	--------	--------	---------

WOMEN'S PHASE JACKET

PRODUCT CODE: **FPHJK**

DARK SKY

DEEP FOREST

Built for life in the mountains, shell jacket engineered for high performance versatility during persistent wet weather conditions.

MATERIALS

- GORE-TEX® PRODUCTS WITH GORE PERFORMANCE TECHNOLOGY
- Plain weave recycled nylon face made from 70 denier yarns with a smooth face, dull optic, excellent abrasion & tear resistance and a nylon tricot backer. Utilising Gore's ePE membrane providing a non-fluorocarbon water repellent and membrane technology

FEATURES

- PIVOT 2 adjustable hood system with separate aperture and crown adjustment
- SEW-FREE fully bonded pocket and zip installs reduce construction and weight, improve comfort, breathability and packability - constructed to prioritise protection and performance
- Maximised FGB (Full Garment Breathability) with breathable Air-Line pocket liners that provide a 1400cm, area of more breathable construction *average across styles
- Built on the Regular Fit block with a standard fit and additional length for optimum coverage providing full wet weather protection

WEIGHT (APPROX):

420g / 14.8oz

SIZES	XS/UK8	S/UK10	M/UK12	L/UK14	XL/UK16
-------	--------	--------	--------	--------	---------

WOMEN'S PHASE PANTS

PRODUCT CODE: **FPHAP**

BLACK

Built for changeable conditions, pants designed for adaptable high performance wet weather protection.

MATERIALS

- GORE-TEX® PRODUCTS WITH GORE PERFORMANCE TECHNOLOGY Plain weave recycled nylon face made from 70 denier yarns with a smooth face, dull optic, excellent abrasion & tear resistance and a nylon tricot backer. Utilising Gore's ePE membrane providing a non-fluorocarbon water repellent and membrane technology
- SCHOELLER KEPROTEC Lightweight and hard-wearing. Enhanced abrasion resistance.

FEATURES

- A 30% reduction of seam tape improves FGB (Full Garment Breathability) and durability, reduces weight and construction *compared to previous equivalent products average
- OFFSET seam intersections improve construction, durability and comfort
- STORM GUARD inner side zip placket
- Regular Fit for a standard fit for core outdoor activities, and maximum coverage for wet weather protection

WEIGHT (APPROX):

385g / 13.6oz

SIZES	XS/UK8	S/UK10	M/UK12	L/UK14	XL/UK16
-------	--------	--------	--------	--------	---------

WOMEN'S SPIRIT LONG JACKET

PRODUCT CODE: **FSLOJ**

CAPER

MIDNIGHT GREY

POWDER

Waterproof, windproof city-to-trail jacket with comprehensive coverage built for a life outside.

MATERIALS

- GORE-TEX® PRODUCTS WITH GORE PERFORMANCE TECHNOLOGY
- Soft plain weave fabric made from recycled 75 D polyester yarns with a soft solution dyed recycled warm brushed backer. Utilising Gore's ePE membrane providing a non-fluorocarbon water repellent and mebrane technology

FEATURES

- PIVOT 2 adjustable hood system with separate aperture and crown adjustment
- A minimisation of seams and tape improves FGB (Full Garment Breathability), durability, reduces weight and construction
- OFFSET seam intersections improve construction, durability and comfort
- Built on the Regular Fit Long block with a standard fit and an extended length to provide maximum coverage for full wet weather protection

WEIGHT (APPROX):

515g / 18.2oz

SIZES	XS/UK8	S/UK10	M/UK12	L/UK14	XL/UK16
-------	--------	--------	--------	--------	---------

WOMEN'S SPIRIT LONG INSULATED JACKET

PRODUCT CODE: **FSLIJ**

BLACK

DUSK

Insulated jacket for cold, wet weather protection is built with technical, performance materials, constructed in a modern silhouette and designed for your life outside.

MATERIALS

- GORE-TEX® with Gore performance technology - A 2 layer soft plain weave fabric made from recycled 75 denier polyester yarn. Utilising Gore's ePE membrane providing a non-fluorocarbon water repellent and membrane technology.
- PRIMALOFT® Classic Series - Black Insulation Rise - A high-end alternative to natural down that delivers enhanced durability and resilience for long-lasting performance and style. Elevated loft offers all the benefits of a high-performance synthetic.
- PEAQ - Lightweight recycled nylon plain woven fabric with non-fluorocarbon water repellency .

FEATURES

- Pivot 2 adjustable hood system with separate aperture and crown adjustment
- Internal insulated neck baffle for additional warmth
- IN-solation internal synthetic baffle construction moves the insulation baffles closer to the body for improved warmth
- Built on the Regular Fit Long block with a standard fit and an extended length to provide maximum coverage for full wet weather protection

WEIGHT (APPROX):

680g

SIZES	XS/UK8	S/UK10	M/UK12	L/UK14	XL/UK16
-------	--------	--------	--------	--------	---------

WOMEN'S NORSTE XT JACKET

UNISEX APEX 8000 DOWN JACKET

PRODUCT CODE: UAP8J

ADRENALINE RED

Expedition specific down jacket for extreme environments.

MATERIALS

- PERTEX® QUANTUM PRO A 30 Denier (with 50 Denier in high abrasion areas) ripstop woven using recycled nylon yarns, with an ultra-thin water-resistant coating, and durable construction, maximising insulation. A non-fluorocarbon water repellent sheds light rain and snow to provide additional weather protection
- Filled with 505g (size Medium) of 90/10 ExpeDRY goose down at 850+ fill power . ExpeDRY works through a permanent and chemical-free bonding of gold particles to the down cluster which aid in the evaporation of water molecules, causing the down to dry faster and stay dry in high humidity and extreme conditions
- PRIMALOFT® Gold Insulation with Cross Core technology, enhanced with aerogel technology for superior thermal efficiency.
- PEAQ Lightweight recycled nylon plain woven fabric with a non-fluorocarbon water repellent

FEATURES

- Boxwall construction throughout for optimum thermal efficiency
- Articulated arms for high reach movement
- Fully adjustable insulated helmet compatible hood with three point adjustment and protective face aperture baffle
- Expedition Fit

WEIGHT (APPROX):

1455g / 51.3oz

WOMEN'S APEX 900 HOODIE

PRODUCT CODE: FAP9H

ECLIPSE BLUE

LAVA

Low weight and maximum warmth down hoodie built for cold, high altitude mountain environments.

MATERIALS

- PERTEX® QUANTUM - Super lightweight recycled nylon nano ripstop woven textile with a non-fluorocarbon water repellent finish.
- Filled with 150g (size Medium) of 90/10 ExpeDRY goose down at 800+ fill power. ExpeDRY works through a permanent and chemical-free bonding of gold particles to the down cluster which aid in the evaporation of water molecules, causing the down to dry faster and stay dry in high humidity and extreme conditions

FEATURES

- Minimal stitch-through baffle construction for a lightweight, packable build
- Reach + fit construction offers unparalleled arm lift and articulation for excellent movement
- Lycra bound under helmet hood with rear crown adjustment
- Built on the Mountain Fit block with added volume for technical layering systems, dropped rear hem for added protection, and sleeve articulation that prioritises arm lift

WEIGHT (APPROX):

330g

SIZES	XS/UK8	S/UK10	M/UK12	L/UK14	XL/UK16
-------	--------	--------	--------	--------	---------

WOMEN'S KAMEN XT HOODIE

PRODUCT CODE: FKAXH

ECLIPSE BLUE

Our cold weather fortress, down hooded jacket engineered to resist the harshest winter conditions during exposed mountain ascents.

MATERIALS

- PERTEX® QUANTUM DIAMOND FUSE 20D recycled ripstop with Diamond Fuse yarn for enhanced abrasion resistance, a smooth surface, and improved water shedding.
- Filled with 187g (size 12) of 90/10 800+ fill power ExpeDRY goose down. ExpeDRY dries faster through a permanent and chemical-free bonding of gold particles to the down cluster
- PRIMALOFT® Gold Insulation Active Vent Lightweight warmth and thermal efficiency, designed for breathability and effective moisture management.
- PEAQ Lightweight recycled nylon lining

FEATURES

- OFFSET box wall baffle construction ensures maximum thermal performance
- Added PRIMALOFT® Gold synthetic insulation panels in CF collar and shoulders to manage moisture build up and provide durable insulation in high compression areas
- Reach + fit construction offers unparalleled arm lift and articulation for excellent movement
- Built on the Mountain Fit block with added volume to allow for technical layering systems

WEIGHT (APPROX):

BLUE

Built for the coldest mountain climbs, hooded jacket designed for exceptional warmth and lightweight durability.

MATERIALS

- PERTEX® QUANTUM DIAMOND FUSE 20D recycled ripstop with Diamond Fuse yarn for enhanced abrasion resistance, a smooth surface, and improved water shedding.
- Filled with 166g (size 12) of 90/10 800+ fill power ExpeDRY goose down. ExpeDRY dries faster through a permanent and chemical-free bonding of gold particles to the down cluster
- PRIMALOFT® Gold Insulation Active Vent lightweight, breathable insulation with stretch, moisture management, and warmth even when wet.
- PEAQ Lightweight recycled nylon lining

FEATURES

- NAT baffle construction improves thermal performance by lofting down towards the body
- PRIMALOFT® Gold synthetic insulation panels in CF collar and shoulders, high compression areas, to manage moisture build up
- Reach + fit construction offers unparalleled arm lift and articulation for excellent movement
- Built on the Mountain Fit block with added volume to allow for technical layering systems

WEIGHT (APPROX):

WOMEN'S GLACIUM HOODIE

PRODUCT CODE: FGLAH

ADRENALINE RED

MIDNIGHT
GREY

Durable, lightweight, weather resistant down hoodie built for the harshest of winter days in the mountains.

MATERIALS

- PERTEX® QUANTUM Pro 30 denier (50 denier in high wear areas) ripstop reinforcement with an ultra-thin water-resistant coating, and durable construction with a non-fluorocarbon water repellent finish
- Filled with 205g (size 12) of 90/10 700+ fill power ExpeDRY duck down. ExpeDRY dries faster through a permanent and chemical-free bonding of gold particles to the down cluster
- PEAQ - Lightweight recycled nylon plain woven fabric with a non-fluorocarbon water repellent finish.

FEATURES

- Wide baffle construction for increased warmth and less cold spots
- Utilising fabrics from Montane s Apex 8000 Down Jacket, mapped to reduce weight and improve durability in high wear zones
- Pivot 2 adjustable helmet compatible hood system with separate aperture and crown adjustment
- Built on the Mountain Fit block with added volume for technical layering systems, dropped rear hem for added protection, and sleeve articulation that prioritises arm lift

SUMAC

Built for the coldest conditions, a Hoodie designed for winter adventures in the mountains

MATERIALS

- PERTEX® QUANTUM 20 Denier recycled nylon ripstop, PERTEX® Quantum textile uses a tightly woven structure to provide a light and soft downproof fabric that allows insulation to fully loft, providing both comfort and enhanced thermal performance. A non-fluorocarbon water repellent finish sheds light rain and snow to provide additional weather protection
- Filled with 145g (size 12) of 90/10 ExpeDRY goose down at 800+ fill power. ExpeDRY works through a permanent and chemical-free bonding of gold particles to the down cluster which aid in the evaporation of water molecules, causing the down to dry faster and stay dry in high humidity and extreme conditions
- Dynamic Insulation Lofty synthetic insulation to retain warmth even when wet, with 4 way stretch for freedom of movement
- PEAQ Lightweight recycled nylon plain woven fabric with a non-fluorocarbon water repellent

FEATURES

- Stitch-through baffle construction for a lightweight, packable build
- PIVOT 2 adjustable hood system with separate aperture and crown adjustment
- Reach fit construction offers improved arm lift and forward reach for unparalleled freedom of movement
- Built on the Regular Fit block with standard fit for core outdoor activities and additional length to maximise coverage and protection

WEIGHT (APPROX):

UNISEX APEX 8000 DOWN JACKET

PRODUCT CODE: UAP8J

ADRENALINE RED

Expedition specific down jacket for extreme environments.

MATERIALS

- PERTEX® QUANTUM PRO A 30 Denier (with 50 Denier in high abrasion areas) ripstop woven using recycled nylon yarns, with an ultra-thin water-resistant coating, and durable construction, maximising insulation. A non-fluorocarbon water repellent sheds light rain and snow to provide additional weather protection
- Filled with 505g (size Medium) of 90/10 ExpeDRY goose down at 850+ fill power . ExpeDRY works through a permanent and chemical-free bonding of gold particles to the down cluster which aid in the evaporation of water molecules, causing the down to dry faster and stay dry in high humidity and extreme conditions
- PRIMALOFT® Gold Insulation with Cross Core technology, enhanced with aerogel technology for superior thermal efficiency.
- PEAQ Lightweight recycled nylon plain woven fabric with a non-fluorocarbon water repellent

FEATURES

- Boxwall construction throughout for optimum thermal efficiency
- Articulated arms for high reach movement
- Fully adjustable insulated helmet compatible hood with three point adjustment and protective face aperture baffle
- Expedition Fit

WEIGHT (APPROX):

MEN'S ANTI FREEZE VEST

PRODUCT CODE: MAFVE

BLACK

CAPAR

Lightweight down vest using innovative high performance down for efficient warmth in the mountains.

MATERIALS

- PERTEX® QUANTUM - 20 Denier recycled nylon ripstop, which uses a tightly woven structure to provide a light and soft down proof fabric that allows insulation to fully loft, providing both comfort and enhanced thermal performance. A non-fluorocarbon water repellent finish sheds light rain and snow to provide additional weather protection
- Filled with 80g (size Medium) of 90/10 ExpeDRY goose down at 800+ fill power. ExpeDRY works through a permanent and chemical-free bonding of gold particles to the down cluster which aid in the evaporation of water molecules, causing the down to dry faster and stay dry in high humidity and extreme conditions
- PEAQ - Lightweight recycled nylon plain woven fabric with a non-fluorocarbon water repellent finish

FEATURES

- Stitch-through baffle construction for a lightweight, packable build
- Insulated CF placket prevents heat loss
- Reduction of vertical seams and enhanced pattern cutting improves durability, reduces weight and removes additional cold spots
- Built on the Regular Fit block with standard fit for core outdoor activities

WEIGHT (APPROX):

240g

DARK SKY

FROST BLUE

Highly breathable, body mapped thermal mid-layer for high output technical mountain pursuits in cold conditions.

MATERIALS

- FEATHERLITE Stretch Air - A weft stretch plain weave, using fully dull nylon yarns engineered to maximise breathability, freedom of movement and comfort without sacrificing durability. A non-fluorocarbon water repellent finish
- PRIMALOFT® Active Series - Gold Insulation Active Vent - Lightweight warmth and thermal efficiency, designed for breathability and effective moisture management
- OCTA 100 - OCTA is an exceptionally unique fibre with a distinctive, highly modified cross-section with eight projections around a hollow fibre. Its unique construction makes the fabric super light, quick drying, highly breathable and extremely warm

FEATURES

- Product build body maps highly breathable materials to effectively manage moisture and ensure full garment breathability
- Mapped insulation places 80g of PRIMALOFT® Gold Active Vent insulation in core areas to provide maximum warmth, combined with low profile OCTA fleece lining to insulate and manage moisture where heat and sweat builds up
- APT technology increases breathability and performance of the whole garment by using FEATHERLITE Stretch Air fabric for both the face fabric and lining (under PRIMALOFT® Gold Active Vent insulation only)
- Built on the Regular Fit block for layering, with Reach + patterning and articulation for technical mountain activities

ALPINE MISSION GLOVES

PRODUCT CODE: **GAMIG**

BLACK

Versatile, warm and waterproof mountaineering gloves, built for technical cold wet weather ascents.

MATERIALS

- GRANITE STRETCH Thermal 4 way stretch double weave, peached next to skin. With a non-fluorocarbon water repellent
- Goat leather supple and durable.
- Grip Plus Providing superior grip and protection while remaining strong and dextrous
- GORE-TEX® glove insert, durably waterproof, windproof and breathable. A non-fluorocarbon membrane technology..
- PRIMALOFT® Gold Insulation. Ultra-soft micro fibres deliver excellent thermal efficiency and loft, even in damp conditions.
- Soft, warm and comfortable, single sided sherpa fleece lining

FEATURES

- GORE-TEX® Plus Warm Technology
- Full goats leather palm, back of hand and fingers for excellent durability and dexterity
- Grip Plus overlay panels provide additional protection in high wear areas and superior grip
- Articulated fingers with 3D patterning minimises seams and bulk and maximises dexterity and durability

APEX MITTS

PRODUCT CODE: GAPEM

ADRENALINE RED

Extremely warm, lightweight down mitt.

MATERIALS

- PERTEX® QUANTUM outer
- Filled with 70g (size Medium) of 90/10 ExpeDRY goose down at 850+ fill power . ExpeDRY works through a permanent and chemical-free bonding of gold particles to the down cluster which aid in the evaporation of water molecules, causing the down to dry faster and stay dry in high humidity and extreme conditions
- 80g/m2 PRIMALOFT® Gold Insulation
- Tough grip reinforced palm
- Rip-stop Nylon reinforcement
- PEAQ Down lining
- Box wall construction

FEATURES

- Long gauntlet style with adjustable hem closure
- Internal heat pad wrist pocket
- Elasticated wrist & leash strap

WEIGHT (APPROX):

210g / 7.4oz

SIZES	XS	S	M	L	XL
-------	----	---	---	---	----

ANTI FREEZE MITTS

PRODUCT CODE: GAFMI

BLACK

Filled with high performance and fast drying 800+ fill power ExpeDRY goose down, Mitts designed for deep winter and easy to pull on for an emergency boost of warmth.

MATERIALS

- PERTEX® QUANTUM 20 Denier recycled nylon ripstop, which uses a tightly woven structure to provide a light and soft downproof fabric that allows insulation to fully loft, providing both comfort and enhanced thermal performance. A non-fluorocarbon water repellent sheds light rain and snow to provide additional weather protection
- 90/10 ExpeDRY goose down at 800+ fill power. ExpeDRY works through a permanent and chemical-free bonding of gold particles to the down cluster which aid in the evaporation of water molecules, causing the down to dry faster and stay dry in high humidity and extreme conditions
- PEAQ Lightweight recycled nylon plain woven fabric with a non-fluorocarbon water repellent

FEATURES

- Waterproof fabric on palm offers increased weather protection and durability
- Synthetic insulation on palm offers durable insulation even when compressed
- Baffled construction
- Articulated to maximises dexterity and comfort

KHAMSIN LITE GLOVES

PRODUCT CODE: GMKLI

BLACK

Highly breathable, insulated softshell glove with excellent moisture management and thermoregulation that excels across a wide range of activity levels and conditions.

MATERIALS

- VECTOR Lite - A plain weave with 2 way stretch, excellent abrasion resistance and robust hand. Non-fluorocarbon water repellency
- Connect - Engineered for touch screen compatibility
- Goat leather - Supple and durable
- OCTA 100 - OCTA is an exceptionally unique fibre with a distinctive, highly modified cross-section with eight projections aligned in a radial pattern around a hollow fibre. Its unique construction makes the fabrics super light, quick drying, highly breathable and extremely warm

FEATURES

- Built to optimise the OCTA yarn for maximum thermal properties and minimal weight
- Built with premium construction techniques that are low profile to maximise comfort, performance, and minimise weight
- Constructed with minimal seams to maximise the stretch of the garment to ensure uninhibited movement during dynamic mountain activities
- Goat leather palm overlay for protection, durability and dexterity
