LIGHTMYFIRE.COM

WE MAKE PRODUCTS FOR A HAPPY LIFE UNDER THE BARE SKY

EST 1995, STILL BURNING STRONG

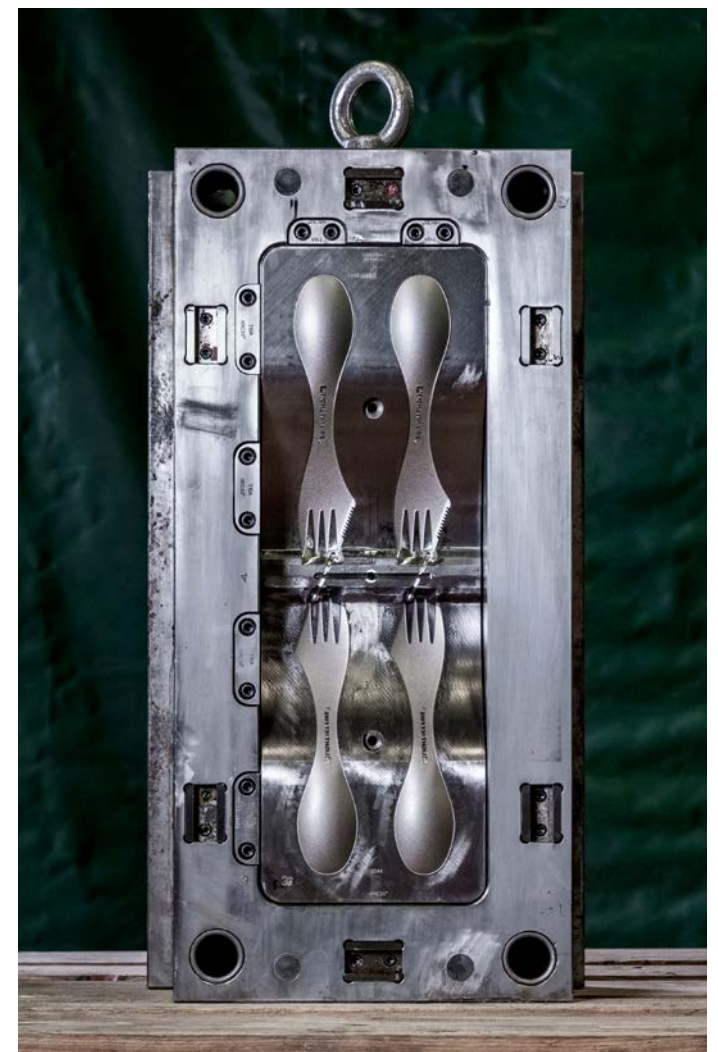

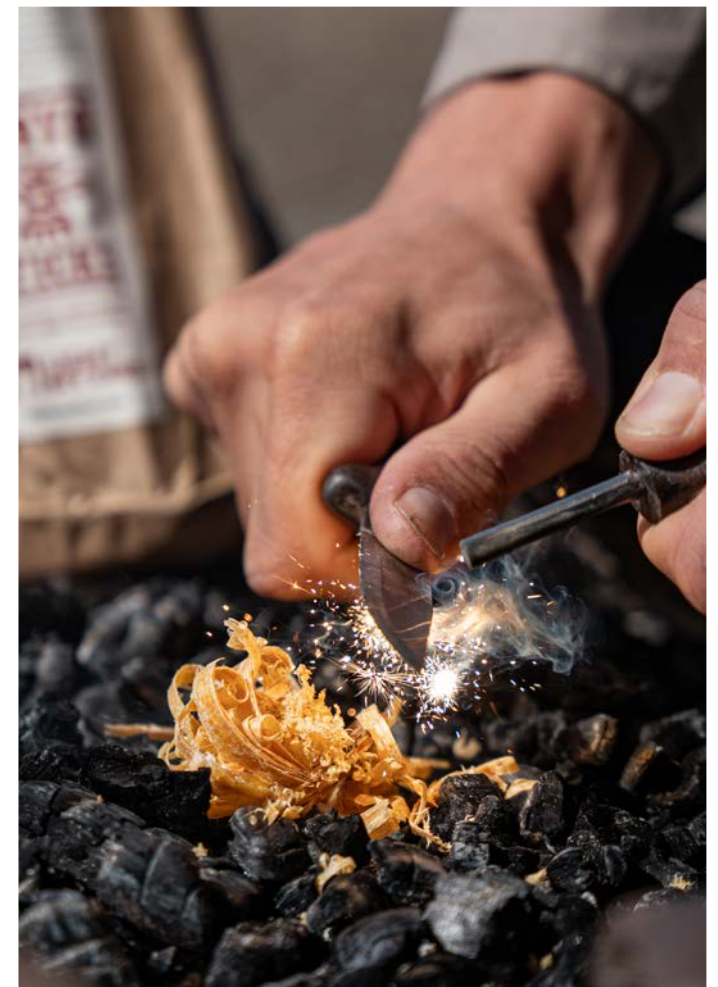

Originating in Sweden, from the very beginning we had a vision of helping people enjoy a healthy and happy outdoor life.

OUR PRODUCTS ARE OUR HEROES

Swedish roots and good design, but at the end of the day our products are our spokespersons. They have to be best-in-class, made to last and able to be recycled at the end of their lives. That's what serves our customers well and makes them fans for life. Our products embody our brand values.

MADE IN SWEDEN

We're a Swedish company, and we choose to manufacture our products at home. The reasons are simple: Working with a factory in Sweden helps us maintain strict quality standards, minimize unnecessary waste and recycle some of our products into new ones. There are shorter lead times so we can come up with new designs and prototype with others looking to use more responsible materials. And we must admit, we're proud to be a local hero, staying true to our Swedish roots.

MATERIAL MATTERS

Our commitment to using responsible materials is a never-ending journey. We focus on using recycled and renewable materials and making products that are durable and recyclable. We believe in being fully transparent about our journey. We will always make the best choice based on what we currently know and explain the pros and cons of all our materials.

Regarding our choice of plastic for our food container products, we made a significant material change in 2025. We have opted to switch from biobased to bio-attributed plastic. We believe that the mass balance approach is a wise decision and will help expedite the transition from crude oil to biobased and recycled plastics. Polypropylene, the type of plastic we are transitioning to, is a durable and hardwearing material suitable for the intended use of these products, ensuring a longer lifespan.

OUR CHOICE OF PLASTIC:

100% BIO-ATTRIBUTED Polypropylene made of 100% bio-attributed plastic from biobased and recycled material. The method behind this is also known as the mass balance approach, which means the material producer adds the same amount of biobased and recycled plastic to their overall production, similar to the concept of green electricity. The plastic type is classified as number 05 ♻️ and at the end of its use, it is recyclable in markets where number 05 ♻️ recycling is available. If not, it should be disposed of in household waste.

15% BIOBASED Co-polyester made of 15% biobased plastic from GMO-free corn. Co-polyester is extremely durable and scratch-resistant to ensure a long life. At the end of its use, it can be recycled in a closed-loop system, meaning we can recycle it in-house at our production facility. This is available for our BORROW rental program products. For standard recycling, the plastic is classified as number 07 ♻️ which falls under the category "other" and shall be sorted as household waste.

EU & FDA FOOD APPROVED according to the latest legislation. There is growing concern about products, especially plastic, potentially harming our health. The EU and FDA are continuously updating regulations to align with the latest knowledge, mandating testing and control from all involved parties. It is crucial to stay abreast of these developments and ensure that the materials comply with the latest legislation. [Link](#)

WELCOME TO THE WORLD OF LIGHT MY FIRE

At Light My Fire, we create products that reconnect people with nature, wherever they are. Whether enjoying a meal in a park or cooking on a mountain peak, we blend Swedish design with outdoor functionality.

From our innovative Spork to our fire starting tools, our mission is to inspire adventure while thinking sustainably about future generations. We love color, practicality, and the joy of the outdoors, creating products as suited to city life as they are to the wild. Made in Sweden, made to last — this is just the beginning of our journey.

THE ORIGINAL MAYASTICKS.

Est. 1995: The product that launched Light My Fire.

Ethically sourced: For every stump harvested, two trees are planted.

Light, Burn, Enjoy: Waterproof and reliable for a clean-burning flame, any time, anywhere.

Keep the fire burning with our MayaSticks. Great for camping, outdoor cooking and fireplace starters, these sticks produce a clean burn without unhealthy chemicals—a big plus for people who love cooking and smoking food using all-natural sources. The high concentration of natural resin in the wood ensures a clean-burning, long-lasting flame.

With every purchase, you're supporting a business that plants two trees for every stump harvested, provides jobs and education for local communities, and reduces overall waste by utilizing leftover stumps.

Light My Fire MayaSticks have received certification under the SCS Material Content Certification Program for using 100% reclaimed material. This standard was developed by SCS to reduce pressures on natural forests and other sensitive environments while striving to meet ever-increasing human demands for wood and other plant-based products.

We source our wood from a reputable company in Honduras. We upcycle the “waste” from tree farms: stumps that would otherwise be unused. We plant two new trees for each stump removed and create work that benefits the local community in a country with high unemployment.

HOW TO MAKE A FIRE
USING FIRESTEEL

1. Grip handles firmly.
2. Push striker at a 45° angle.
3. Press hard & slow to create hot sparks.

Developed for the Swedish Defense, the Swedish FireSteel® Army delivers 12,000 strikes at 2 980°C/5 500°F, ensuring fire in any weather. With an ergonomic design, precision striker, and built-in whistle, it's the ultimate adventure tool.

Swedish FireKnife

- Includes an original Swedish FireSteel®
- Drain hole for easy cleaning
- Sturdy half tanged blade
- Tight-fitting sheath

The Swedish FireKnife is more than a knife—it's a firestarter too. Crafted in Sweden with a bioplastic mix and 80% recycled stainless steel, it's perfect for cutting, shaving kindling, or slicing.

The handle holds a Swedish FireSteel®, delivering up to 3000 strikes at 2 980°C/5 500°F. Durable, multi-functional, and ideal for every home, wherever it is.

SWEDISH FIREKNIFE®

More than a knife. More than a fire starter. Best of both.

- Sturdy half tanged 8.9cm/3.5inch 12C27 Alleima 80% recycled stainless steel blade
- Includes weather-proof Swedish FireSteel® secured with a bayonet lock. Last up to 3000 strikes
- 90° degree grinded spine for maximum 2 980°C/5 500°F hot sparks
- Tight-fitting sheath with sturdy belt clip and drain hole for easy cleaning
- Handles and sheath made of massbalance polypropylene, 100% bioattributed
- Made in Sweden

Meet Grandpa. Once upon a time, a man camping with his grandson fashioned a piece of wire into most versatile holder we´ve ever seen. The result Granpa´s FireFork. Grill all the classics and more using this ingenious, practical and simple little tool. Attaches firmly to any stick you find lying around and even makes an excellent fire poker.

Extend the outdoor menu further by using the foldable GrandPa´s FireGrill.

Recipe #30

SOURDOUGH FIRE BREAD WITH HERB & GARLIC BUTTER, YOGURT & DUKKAH

INGREDIENTS

- 6 sourdough dough balls (page 124)
- 6 tablespoons plain, full-fat yogurt
- 2 oz (60 g) butter
- 2 garlic cloves, thinly sliced
- Dried flowers
- Dukkah

DRIED HERB-AND-CHILI MIX

- 1 teaspoon mustard seeds
- 1 teaspoon coriander seeds
- 2 teaspoons dried parsley
- 2 teaspoons dried cilantro
- 1 teaspoon dried onion
- 3 teaspoons dried oregano
- 1 teaspoon chili flakes
- 1 teaspoon freshly ground black pepper
- 2 teaspoons sea salt

INSTRUCTIONS

01. Pour all the ingredients for the herb-and-chili mix in a mortar and roughly crush and mix together. Transfer to another airtight container.
02. Start the fire and wait until you have glowing embers. Take a fire bread dough ball and flatten it out a bit, so it fills the whole FireGrill. Close it up, find a spot over the hot embers, and keep rotating until both sides are browned. Set the FireGrill aside and let it cool a bit.
03. Put the butter in a fireproof saucepan over the embers. Let the butter melt, add the garlic and the dried herb mix. Let it bubble for about 2-3 minutes until the garlic takes on color.
04. Take the bread from the FireGrill and pour some of the butter mixture over it. Drizzle with yogurt and top with some dukkah and dried flowers.

ONE COLOR FOR EVERY MOOD

A Swedish Design Classic

Like all great innovations, the Swedish Spork was born as an antidote for a curious problem.

Together with industrial designer, Joachim Nordwall, we took the spork, usually a spoon with fork teeth, and evolved it into a never-before-seen tool of our own. Placing the spoon at one end, and a serrated fork at the other, we created a three-in-one combination utensil connected by a smooth and natural curve. The crowd went wild! The wave of enthusiasm sold 1 million pieces in the first year and 60 million to date.

But the saga continues. Its growing appreciation has brought the Swedish Spork into renowned publications such as The New York Times, known for its in-depth journalism, and into the hands of numerous celebrities—including the Swedish royal family and many others. A star was well and truly born, and its recognition eventually reached the Svensk Form. An association promoting innovative Swedish design since 1845. Welcomed into the hallowed halls of Applied Arts, the Swedish Spork was officially awarded as an object of aesthetically pleasing functionality.

A Swedish Design Classic. A hardworking and adventurous utensil, bringing beautiful form to simple function. The Swedish Spork continues to evolve, serve, and tell its story through the millions of Sporkers out there in all adventures big and small.

Recipe #02

GRILLED PIMIENTOS DE PADRÓN WITH CRÈME FRAÎCHE

INGREDIENTS

- 21 oz (600 g) pimientos de padrón chilies
- 3 tablespoons canola (rapeseed) oil
- Sea salt flakes
- 2 ½ cups (600 ml) crème fraîche

Recipe
from our
CookBook

INSTRUCTIONS

01. Light the fire and let the charcoal take on a shimmering glow.
02. Place the chilies in a bowl, cover with oil and mix until everything is covered. Place the chilies in a GrandPa's FireGrill or a coarse mesh strainer and grill until they take on color and their skin starts to bubble and crack. Remove from grill and season with sea salt flakes to taste.
03. Dollop crème fraîche onto a plate, place the chilies on top and sprinkle with the furikake. Serve with some grilled cheese sandwiches.

Outdoor MealKit

The 7-piece Outdoor MealKit makes outdoor cooking simple. It includes everything you need: smart food storage, a cutting board, plate, bowl, two Swedish Sporks, and a Swedish Kåsa. RESPONSIBLY MADE FOR PEOPLE AND THE PLANET

Choosing the Plates Collection means more than enjoying a meal outdoors; it's a decision to support environmentally responsible practices. These plates replace single-use plastic with durable, reusable options that help reduce waste. By selecting this collection, you're part of a movement toward more responsible consumption.

HEALTH AND SAFETY AT THE FOREFRONT

When you're eating outside, the last thing you want to worry about is the safety of your tableware. Our Plates Collection avoids materials like melamine and bamboo composite, which have raised health concerns due to the risk of formaldehyde leaching. Instead, we've chosen 15% bio-based bioplastic materials that are BPA-free and conform to stringent EU/FDA food safety standards. Safe for microwave and dishwasher use, our tableware makes your outdoor meals worry-free.

DESIGNED IN SWEDEN

Our tableware was designed by Carl-Johan Skogh, a highly regarded Swedish product designer and lecturer. Carl's approach integrates functionality with aesthetic elegance, drawing from the minimalist and naturally imperfect principles of wabi-sabi.

THE SWEDISH KÅSA

- another Swedish classic

What is a kåsa - and why has it become a Scandinavian outdoor favourite?

The kåsa is one of the most iconic pieces of outdoor gear in Sweden. For generations it has followed hikers, paddlers, forest explorers and coffee lovers through mountains, deep forests and along rugged coastlines. Despite its simple shape, the kåsa remains one of the most beloved and widely used outdoor tools - available today in everything from traditional wooden designs to modern, bio-based versions. There's a reason so many people search for terms like "best kåsa", "Swedish kåsa" or "outdoor cup kåsa". It's simply as practical as it is timeless.

**The origins of the kåsa:
a timeless Swedish design**

The classic kåsa has roots deep in Nordic craft traditions. The original versions were handmade, often carved from a burl on a birch tree. The shape was made to fit naturally in the hand, withstand both water and heat, and serve as an all-purpose vessel when moving through nature.

It's this functional simplicity that has allowed the kåsa to survive for hundreds of years - and today become a natural part of Scandinavian outdoor culture.

**A modern kåsa for today's
outdoor lifestyle**

At Light My Fire, our kåsas are inspired by the traditional shape but reinterpreted with a stylish touch, and a design that matches today's needs. Our Swedish Kåsa models are made from bio-based materials, offering low climate impact and long-lasting durability.

They're tough, lightweight and perfect for anyone looking for a sustainable alternative to single-use items - whether on the trail or in everyday life.

Swedish Kåsa 150 ml
- compact and versatile

PERFECT FOR:

- coffee or tea on the go
- small servings and tast
- snacks on the trail
- minimal packing setup

Swedish Kåsa 300 ml
- the original size

IDEAL FOR:

- soups and meals
- warm drinks
- longer breaks in nature

Together, they form a great combo for anyone wanting to optimize their pack without compromising on function.

Why outdoor enthusiasts love the kåsa

A kåsa is more than a cup or bowl - it's a symbol of nature's simplicity and the slower pace so many of us long for. In a world that moves quickly, the kåsa reminds us to pause, enjoy a warm drink, take in the view, and let nature do its work.

Swedish Kåsa

NEW!

SWEDISH KÅSA 150 ML/5 OZ

A must-have for all outdoor lovers, in a timeless, Scandinavian design.

Recipe #29

CREAMY GREEN PEA SOUP WITH CRISPY CROUTONS AND HERB OIL

INGREDIENTS

- 3 tablespoons (30 g) butter
- 2 yellow onion, chopped
- 3 teaspoons minced garlic
- 4 cups (9 1/2 dl) vegetable broth
- 4 cups (600g) pre-cooked green peas
- 1/2 teaspoon salt & pepper
- 1/2 cup (120 ml) heavy cream
- Herb oil

CRISPY CROUTONS

- 5 oz (140 g) sourdough bread, thinly sliced
- 3 tablespoons olive oil
- 1 teaspoon minced garlic

INSTRUCTIONS

01. Heat the oven to 350°F (175°C). In a small bowl, combine olive oil and minced garlic. Drizzle the garlic oil over the bread slices. Put the bread on a baking sheet and bake until light golden and crisp, about 10 minutes. Let cool, break up into smaller pieces, and put them in an airtight container.
02. Melt butter in a soup pot over medium-high heat. Add chopped onion and minced garlic and cook until soft, stirring frequently, about 5 minutes.
03. Add the peas, salt and pepper. Keep stirring for a couple of minutes. Add vegetable broth and bring to a boil, then cover and simmer for about 10 minutes.
04. Using an immersion blender, blend the soup until creamy. Add in heavy cream and stir to thicken it up.
05. Serve in cups, drizzle some herb oil over, and top off with some crispy croutons.

Cooking Under The Bare Sky

“It’s about creating dishes that make you think: ‘Wow, that’s incredible!’ instead of just: ‘That filled me up.’”
Recipes by Martin Nordin

Cooking Under the Bare Sky celebrates the Nordic tradition of outdoor cooking. With fire-inspired recipes for every season, it’s a practical and inspiring guide to making meals over open flame—whether in the wild or your backyard.

Packed with tips on fire cooking and foraging, it’s about reconnecting with nature through food.

COOKING UNDER THE BARE SKY

A seasonal outdoor cookbook rooted in Nordic traditions that’s inspired by cooking over fire and the four seasons.

- Seasonal inspired recipes
- Tips for foraging and preserving ingredients
- Outdoor cooking tip and techniques
- Simple, tasty meals for any outdoor setting
- Inspired by friluftsliv, the Nordic tradition of open-air living
- Hardcover, 180 pages and 65 recipes
- Available in English, Swedish, German and Norwegian

COOKING UNDER THE BARE SKY

– a seasonal cookbook inspired by nature

THIS BOOK IS FOR ANYONE WHO LOVES BEING OUTSIDE, WHO VALUES ADVENTURE AND WHO BELIEVES THAT A GOOD MEAL, COOKED OVER A FIRE, IS ONE OF THE BEST WAYS TO CONNECT WITH NATURE AND WITH EACH OTHER

– Per Jonsson, Haglöfs Ski Camp

65 SEASONAL RECIPES

that highlight fresh, foraged and preserved ingredients

PRESERVATION TECHNIQUES

to enjoy nature's bounty year-round

PANTRY ESSENTIALS

for flavorful, layered outdoor meals

COOKING UNDER THE BARE SKY OFFERING NOT JUST RECIPES BUT A PHILOSOPHY THAT ALIGNS WITH THE WAY WE AT HOUDINI SPORTSWEAR VIEW THE WORLD: WITH CARE, CURIOSITY AND A DEEP RESPECT FOR THE ENVIRONMENT.

– Hanna Lindblad, Global Sales Director & partner Houdini Sportswear

MARTIN NORDIN

At the heart of the book is Martin Nordin, acclaimed food creator and photographer known for his imaginative plant-based cooking. With a unique ability to elevate simple ingredients, he brings a fresh perspective to cooking in the wild. The recipes reflect each season's character and balance simplicity with depth – where fire, smoke and nature remain essential elements.

IT'S ALL IN THE DETAILS

NATURAL AND BURNT.

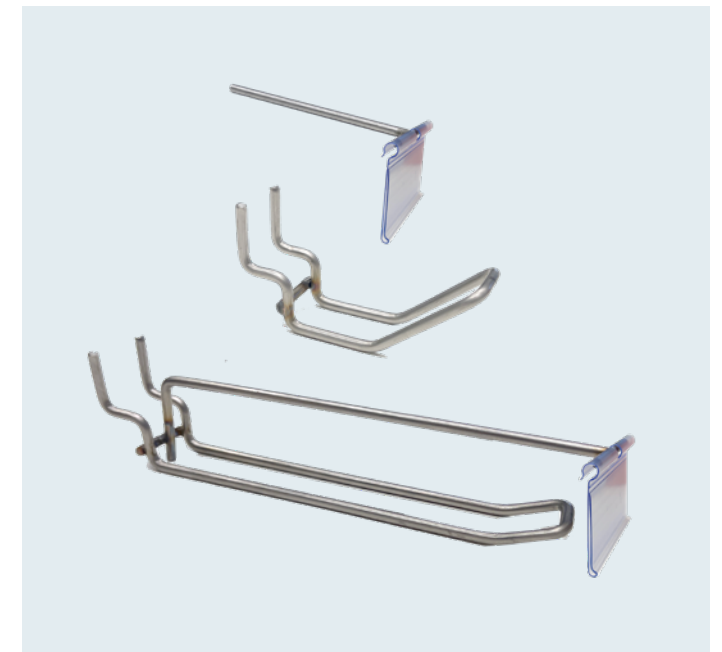

This unique characteristic is created by burning Swedish pine tree wood. When the pinetree burns, it releases a pleasant aroma and provides natural protection.

RECYCLED STEEL WITHOUT COATING.

Our display pegs are made from recycled steel and have not been treated in any way, resulting in a raw, natural look.

BRANDING AND STAMPS.

We heat-stamp our displays, creating a feeling of trade. We also avoid the use of harsh chemicals that are harmful to the environment.
