

SS/24

Plans in the mountains can change quickly.

The weather can change.

Your goals can change.

Days can start one way and end completely differently.

A change of conditions, a change of activity or even a change of heart.

Our clothing and equipment has adaptability built in

And is prepared for whatever gets thrown at it.

An aerial photograph of a mountain range. The foreground shows a steep, dark green slope with some rocky patches. The middle ground features rolling green hills and valleys, partially shrouded in mist or low clouds. The background shows more mountain peaks and ridges, also partially obscured by mist. The overall scene is a vast, rugged landscape.

built for **more**

TIMELESS DESIGN

Montane design is long lasting. Our products are built to last, aesthetically and physically, delivering on our fast and light mission.

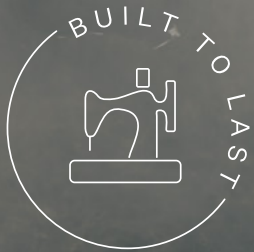

Aesthetically, we embody simplicity. Our focus on lightweight inherently delivers a consistent, clean timeless design. This gives our product a permanent relevance, meaning they are appropriate across multiple activities and will not become outdated.

Physically, our product is intuitively functional and durable. We strive to deliver the highest performance. We focus on every element; design, materials and construction to ensure our products will withstand the test of time.

It is the foundation of our sustainability strategy.

This is timeless design.

Further. Forever.

The durability of our products is of paramount importance. Here you can find information about the Montane Repair Service, aftercare, and our lifetime guarantee.

This pillar includes information about Montane's Code of Conduct, our Fair Wear Foundation membership, and supply chain social considerations.

Here you can find information about the ways Montane is helping to protect the landscapes that we all cherish.

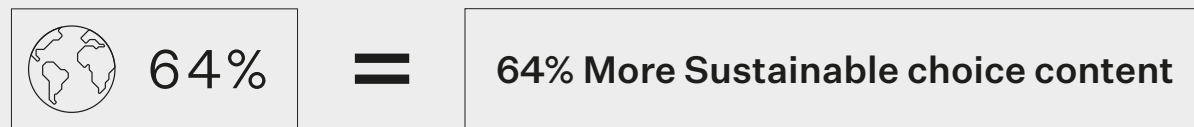

We're working hard to reduce our environmental footprint, without compromising on product performance. This pillar details sourcing decisions we are taking to achieve this.

More Sustainable Choice

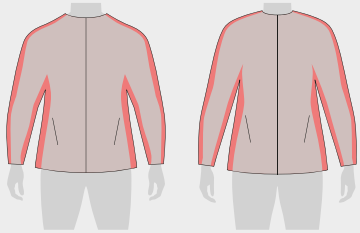

What are 'more sustainable' materials?

- More than 50% of a product must be 'more sustainable' for it to receive the More Sustainable Choice logo.
- 'More sustainable' content includes: Recycled content, organic cotton, RDS down and non-mulesed wool.
- More Sustainable Choice products must also use a PFC free (CO) DWR where a DWR is required.

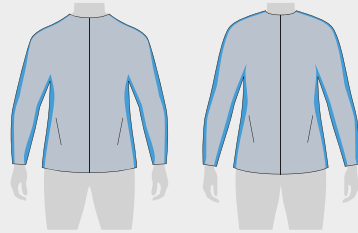

Fit guide

TORSO

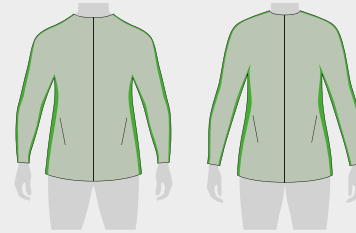

Expedition

Added volume to allow for technical layering systems in cold environments

Mountain

Cut to accommodate additional layers for added functionality

Regular

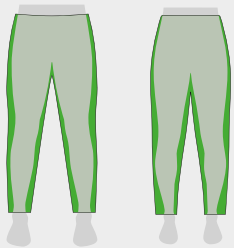

Standard fit for core outdoor activities

Trim

Close-fitting for fast-moving, active users with added articulation

LEGWEAR

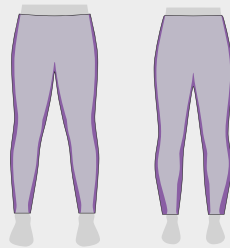

Regular

Standard fit for core outdoor activities

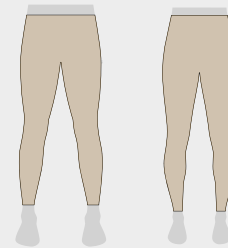

Athletic

A tailored fit, designed with added stretch for greater movement

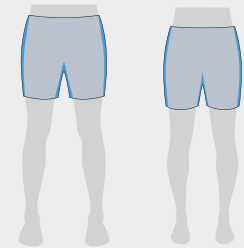

Trim

Close-fitting, for fast-moving, high-output activity

Next-to-Skin

Tight fitting and designed to be worn next to skin

Run

Tailored fit for run specific activity

Product Build

XPD

XPD products are built to protect in the most extreme environments and the most severe weather, offering uncompromising durability and function.

XT

XT products are designed with added feature sets, increased durability, and cut to accommodate functional layering systems for extended use in the mountains.

CORE

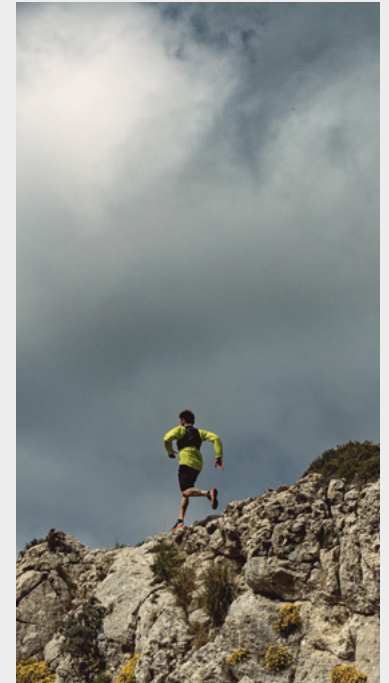

Versatile outdoor product designed for core mountain activities all year round.

LITE

Lighter materials, optimised features, trimmer fits, Lite products have a clear fast and light focus.

NANO

Lightest appropriate weight with optimal features. Material performance and packability are paramount for Nano products.

TRAILBLAZER XT 35

PRODUCT CODE: **PTX3517**

NEW

ACR17
ACER RED

Engineered to endure more rugged terrain, the Trailblazer XT builds on our innovative Trailblazer packs to excel in Alpine environments in a more sustainable package.

USP

- **SUSTAINABLE MATERIALS** - Durable recycled Nylon fabrics throughout the packs ensure reduced environmental impact without compromise
- **MODULAR ADAPTABLE DESIGN** - Montane T-Hook works alongside laser cut holes either side of front panel to offer adaptable easy to reach storage solutions
- **IMPROVED VERSATILITY** - Improved pockets configuration throughout offers more versatile easy access storage, allowing more variety of carry to be stowed securely

MATERIALS

- Main - Raptor Cross 210D 100% Nylon (recycled) Triple Ripstop with PFC-Free DWR Coating
- Lining - Halo 200D 100% Polyester with PFC-Free DWR Coating
- Mesh Pockets - Power Mesh 80% Nylon (recycled) 20% Elastane mesh
- Back Pad - Contact Open Mesh 100% Polyester mesh
- Shoulder Straps & Hip fins - Contact Air Mesh Plus 100% Polyester (recycled)

FEATURES

- Customisable, body-hugging trail specific COVALENT harness - pulls pack close to body using vertical and horizontal compression
- Two off-centre Montane Click and Go chest harness straps for security whilst moving at fast pace
- Easily adjustable ZephyrAD back system
- 3D moulded foam back panel - comfortable, stable fit with greater breathability and structure
- Accessible, wrap-around wand pockets with locking security zips - access bottles/snacks on the go, lock a larger bottle poking out of zip
- Zipped front pocket
- Zipped main compartment access
- Webbing compression straps - can compress from anywhere along hidden daisy chain
- Bivi opening with quick release cord lock adjustment
- Hidden daisy chain - compatible with custom T-hook system
- Ice axe/trekking pole webbing loop and cord lock
- Hydration bladder compatible - should specify sizes/brands
- Shoulder strap pockets with mesh gusset - can fit soft flasks or hard bottles

WEIGHT

(approx): 1170g / 41.3oz

FIR
FIREFLY ORANGE

Designed for use in the most extreme environments on earth, the Apex 8000 Down Jacket has been developed in conjunction with expedition leading mountaineers and tested in high altitudes of 8000m+. The jacket is designed to be used with the Apex 8000 Down Salopettes as part of a 2 piece system, which gives it versatility for use at lower altitudes or on polar expeditions. Filled with 500g of the highest quality water-resistant goose down within a box walled construction. With the additional water resistance of PrimaLoft® insulation in key areas, there is no compromise to functionality or features on this piece of survival gear.

PERTEX
QUANTUM PRO

MATERIALS

- PERTEX® QUANTUM PRO with a highly water resistant internal coating and DWR
- PERTEX® QUANTUM PRO rip-stop reinforced areas with a highly water resistant internal coating and DWR
- 500g (M) of 90/10 water resistant fluorocarbon-free HyperDRY™ goose down at 850+ fill
- Additional 60g/m² PrimaLoft® Gold Insulation with Cross Core™ technology across the back and shoulders
- PEAQ Down lining
- Responsible Down Standard (RDS) and Track my Down™

FEATURES

- Boxwall construction throughout for optimum thermal efficiency
- Articulated arms for high reach movement
- Fully adjustable insulated helmet compatible hood with three point adjustment and protective face aperture baffle
- Collar height designed to accommodate an oxygen mask
- Insulated internal neck baffle
- Extra durable full length two-way YKK VISLON® front zip with double insulated storm flaps and hook and loop closure
- Long cut for ample overlap with salopettes or legwear
- Two-way pit zips with YKK AquaGuard® zips
- Two microfleece hand pockets with YKK AquaGuard® zips and storm flaps
- Two Napoleon pockets with YKK AquaGuard® zips and electronics cable exit
- Napoleon pocket provides access to internal mesh drop pocket
- Two internal mesh drop pockets to fit 500ml bottles
- Zipped internal chest pocket with electronics clip
- Stretch fabric internal mitts with integral thumb loops
- Hook and loop adjustable cuff tabs
- Internal stretch cuffs with left side opening for a watch face
- External glove or mitt forearm attachment points
- Internal waist drawcord adjustability
- Adjustable hem with cinchable drawcord
- Glove and mitt friendly cords and zip pulls
- Supplied with compression stuff sac and storage bag
- Expedition Fit

DEEP FOREST

The ultimate in versatile active insulation. Warm, highly breathable and cut to provide unrestricted movement, its sleek silhouette and refined feature set creates the perfect layer to keep you warm when working hard either as a mid or outer layer. A water repellent finish sheds light rain, ensuring comfort and protection in changeable conditions.

MATERIALS

- Outer - Featherlite™ Air 12D 90% Nylon 10% Polyurethane offers 2-way stretch, high air permeability for maximum breathability and comfort during high-energy activities
- Insulation - Dynamic Eco 60g/m2 100% Recycled Polyester offers weather resistant thermal performance that moves with you
- Inner - Featherlite™ Air 12D 90% Nylon 10% Polyurethane offers 2-way stretch, high air permeability for maximum breathability and comfort during high-energy activities

FEATURES

- Fully insulated under helmet hood provides low bulk warmth
- Fully adjustable hem to minimise heat loss and keep out wind
- Sleeve articulation for added comfort during dynamic movement
- Elasticated cuff for added protection
- YKK Vislon centre front zip
- YKK reverse coil chest pockets for ease to reach secure storage
- YKK reverse coil hand pockets for secure storage

WOMEN'S TERRA STRETCH XT PANTS-REG LEG

PRODUCT CODE: **FTXTR16**

BLA16
BLACK

The Terra Stretch XT Pants are our most rugged technical mountain pants, designed for mountaineering, scrambling and everything in-between. Boasting a comprehensive feature set to compliment the tried and tested GRANITE and GRANITE® Hydro fabrics, the Terra XT Pants are light weight whilst still retaining their robustness and versatility.

MATERIALS

- Main - Granite Stretch Thermal 260g/m2 50% Nylon 42% Polyester 8% Elastane 4 way stretch double weave with peached finish and a PFC-DWR Coating
- Instep - Schoeller® Keprotec® Kevlar® 85% Nylon 15% Aramid for enhanced durability

FEATURES

- Brace hooks compatible with Montane braces
- Low profile waistband with secure Snap opening
- Zipped fly opening
- Two mesh lined hand pockets with YKK zips
- Deep mesh lined thigh pocket with YKK zips
- Side seam zipped mesh lined ventilation
- Pre-articulated knees and gusseted crotch
- Zipped gusseted hem with Reinforced instep
- Zipped rear pocket
- Regular Fit

WEIGHT

(approx): 490g / 17.3oz

WOMEN'S SLIPSTREAM TRAIL TIGHTS-REG LEG

PRODUCT CODE: **FS3TR15**

BLA15
BLACK

The Slipstream Trail Tights are designed specifically for mountain runners. Made with ECONYL® regenerated nylon yarns, they're durable and unrestrictive, while also boasting a reduced environmental impact. A tailored run-specific fit ensures the shorts move with you, while low profile flatlock seams and an internal waist drawcord keep bulk to a minimum. Ankle zippers make the tights easy to put on / take off.

MATERIALS

- Main- VITA with ECONYL® regenerated nylon has a 4 way stretch for unrestricted movement
- Rear knee - Apex-Dry Mesh panels behind knees for improved breathability

FEATURES

- Low profile flatlocked seams
- Discreet thigh pocket
- Stretch waistband with internal waist drawcord
- Rear pocket with YKK zip
- Rear gel shot pockets
- YKK ankle zippers
- Reflective details

The Symphony Modular Mitt is our most technically advanced mitt system. Extremely tough, waterproof and insulated: the GRANITE STRETCH THERMAL with GORE-TEX Plus Warm Technology insert outer mitt protects against harsh winter conditions. The ultra-light inner lobster style mitt is constructed with PrimaLoft® insulation and a PERTEX® outer providing exceptional warmth and can still be used as a stand-alone piece.

MATERIALS (OUTER)

- GRANITE STRETCH THERMAL softshell
- Goat leather palm and side walls
- GORE-TEX waterproof insert plus Warm Technology
- 133g/m2 PrimaLoft® Gold insulation
- Pile fleece lining

MATERIALS (INNER)

- PERTEX® QUANTUM with Ripstop Nylon reinforcement
- 100g/m2 PrimaLoft® Gold insulation
- 100g/m2 PrimaLoft® Gold Grip Control insulation
- Brushed microfleece lining

WEIGHT (approx): 73.5g / 2.6oz inner mitt, 247g / 8.7oz outer mitt (M)
