SPRING/SUMMER 2024 / DARE TO EXPLORE

SINNER
AS I AM

SINNER
AS I AM

SINNER AS I AM

Who am I?

**I'm not like them. I don't need anyone else to tell me who I am.
I follow my own path and make my own choices.
I am who I want to be, not who others want to see.**

Exactly myself. Just as I am.

**As I am does not mean being indifferent.
It just means that I'm comfortable with being different.
Comfortable with being authentic.**

**I don't judge you by the way you look, act or talk.
I don't judge you by your political, sexual or religious preferences.**

Cause in the end: there's a sinner in all of us.

Icon Specs

- PC** Decentered polycarbonate lenses 100% UVA/B/C protection
- HA** Special high altitude protection lens 100% UVA/B/C protection
- HD** Decentered high-durability lenses 100% UVA/B/C protection
- CR39** The highest abrasion resistance of any uncoated optical plastic. 100% UVA/B/C protection
- CE** Contrast enhancing
- RXC** RX-compatible
- OPAD** Optical adaptor
- MULTI** Multi lens 100% UVA/B/C protection
- MR** Mirror lens
- AS TT** Anti-slip temple tips
- HP** Hydrophobic finish on the outside of the lens
- CAT 2** CAT 2. Lenses
- CAT 3** CAT 3. Lenses
- CAT 4** CAT 4. Lenses
- ANP** Anti-slip nose pads
- AS NT** Anti-slip nose pads and temple tips
- STS** Stainless steel screw hinge
- NO** Nickel free
- FLX** Temples with flex technology
- LW AF** Lightweight aluminium frame
- LW** Lightweight frame
- AC FR** Acetate frame
- ADJ NP** Adjustable nose pads
- MR** Superior mirror coating on the inside of the lens
- AC** Air Channel in the temple
- SS** Sun stop shelves
- OTG** Over The Glasses makes it possible to keep your spectacles on underneath your goggles
- TR90** Extreme flexible, durable and light weight
- CX** 100% recyclable. Environmentally friendly manufactured. No toxic BPA Flexible & high impact resistant
- SINTEC** Decentered polarised lenses reduce 99.9% of reflected glare
- TRANS+** Photochromic lens provides rapid color change made of high impact Polycarbonate synthetic material
- OLEO PROOF** Helps runoff water, sweat, mud & oil. Resists stains and repels grease from fingerprints.
- PX** Panoramix lens, rimless, helps to extend the upper and the horizontal field of view
- FLY** Designed for floating and use around the water. Dry lenses directly after contact with water.
- CS** The best colour filtering function to enhance the colours requested by specific sports for better performance

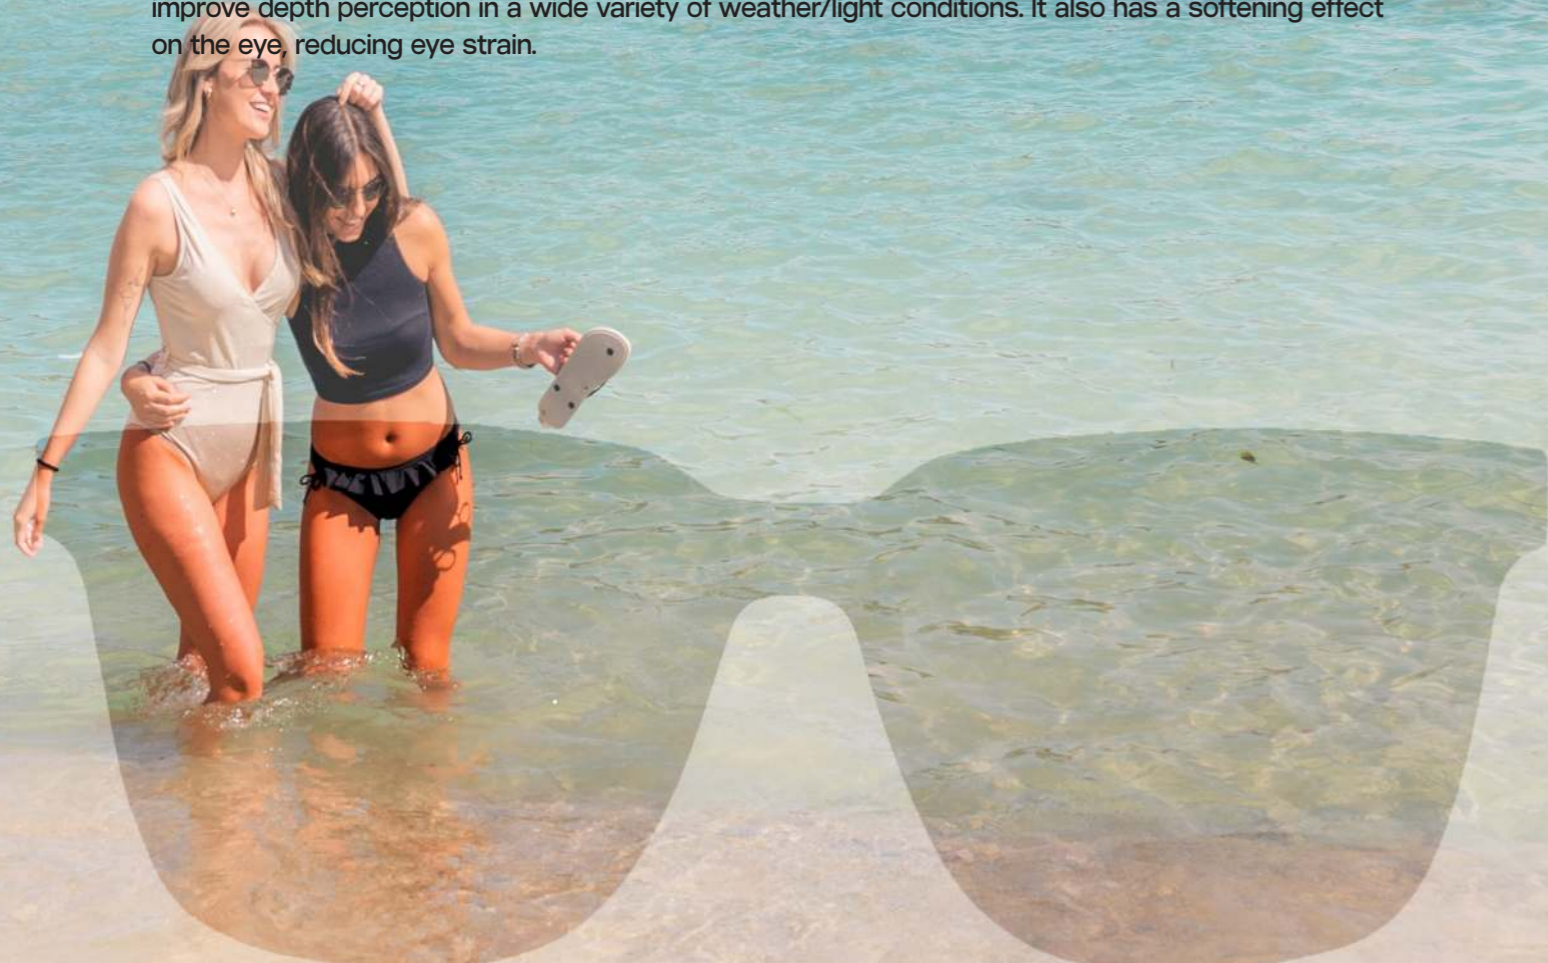

SINTEC® Technology

SINTEC® Polarised Lenses

SINTEC® lenses eliminate reflections from flat surfaces, ensuring greater visibility and comfort. This comfortable polarised lens cuts blinding glare while filtering blue light to increase contrast and improve depth perception in a wide variety of weather/light conditions. It also has a softening effect on the eye, reducing eye strain.

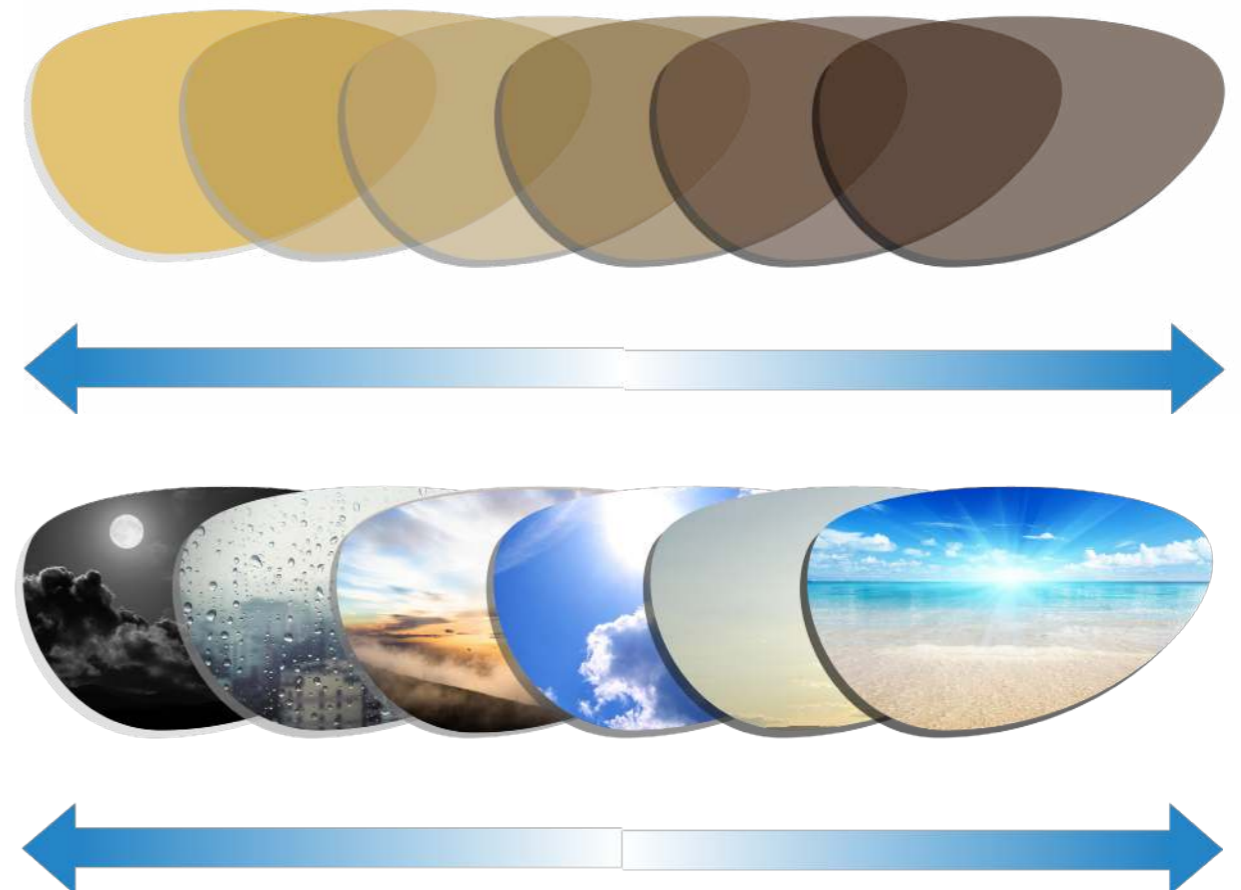

FLAT SURFACE REFLECTING LIGHT WAVES

TRANS+® Technology

The Photochromic TRANS+® Lens

The Photochromic TRANS+® lens provides rapid colour change! This high quality lens is made with the most advanced photochromic technology and the best high impact Polycarbonate synthetic material there is. It changes from orange to brown and vice versa. This ensures that your eyes will receive the best protection in all weather conditions.

Clearest

Provides the clearest vision, rapid clearing when you go inside with flat and low light conditions.

Darkest

TRANS+® lenses become as dark as cat.3 sunglasses when you are exposed to the bright sunlight and provides 100% UV protection.

Fastest

Changes colour rapidly! The TRANS+® lens is one of the fastest traditional Polycarbonate Photochromic lenses.

Highest performance

The advanced Polycarbonate Photochromic lens provides the highest performance, with the best material and the fastest changing lens from orange to brown and vice versa.

Key Features

- ➔ Better visual comfort for all day use
- ➔ Special colour design for specific environments and conditions you will encounter out
- ➔ Enhance details of specific target for efficient judgement
- ➔ High contrast for sharper visual acuity
- ➔ High clarity for clear vision
- ➔ Eye protection by filtering 100% UV and high energy of blue light

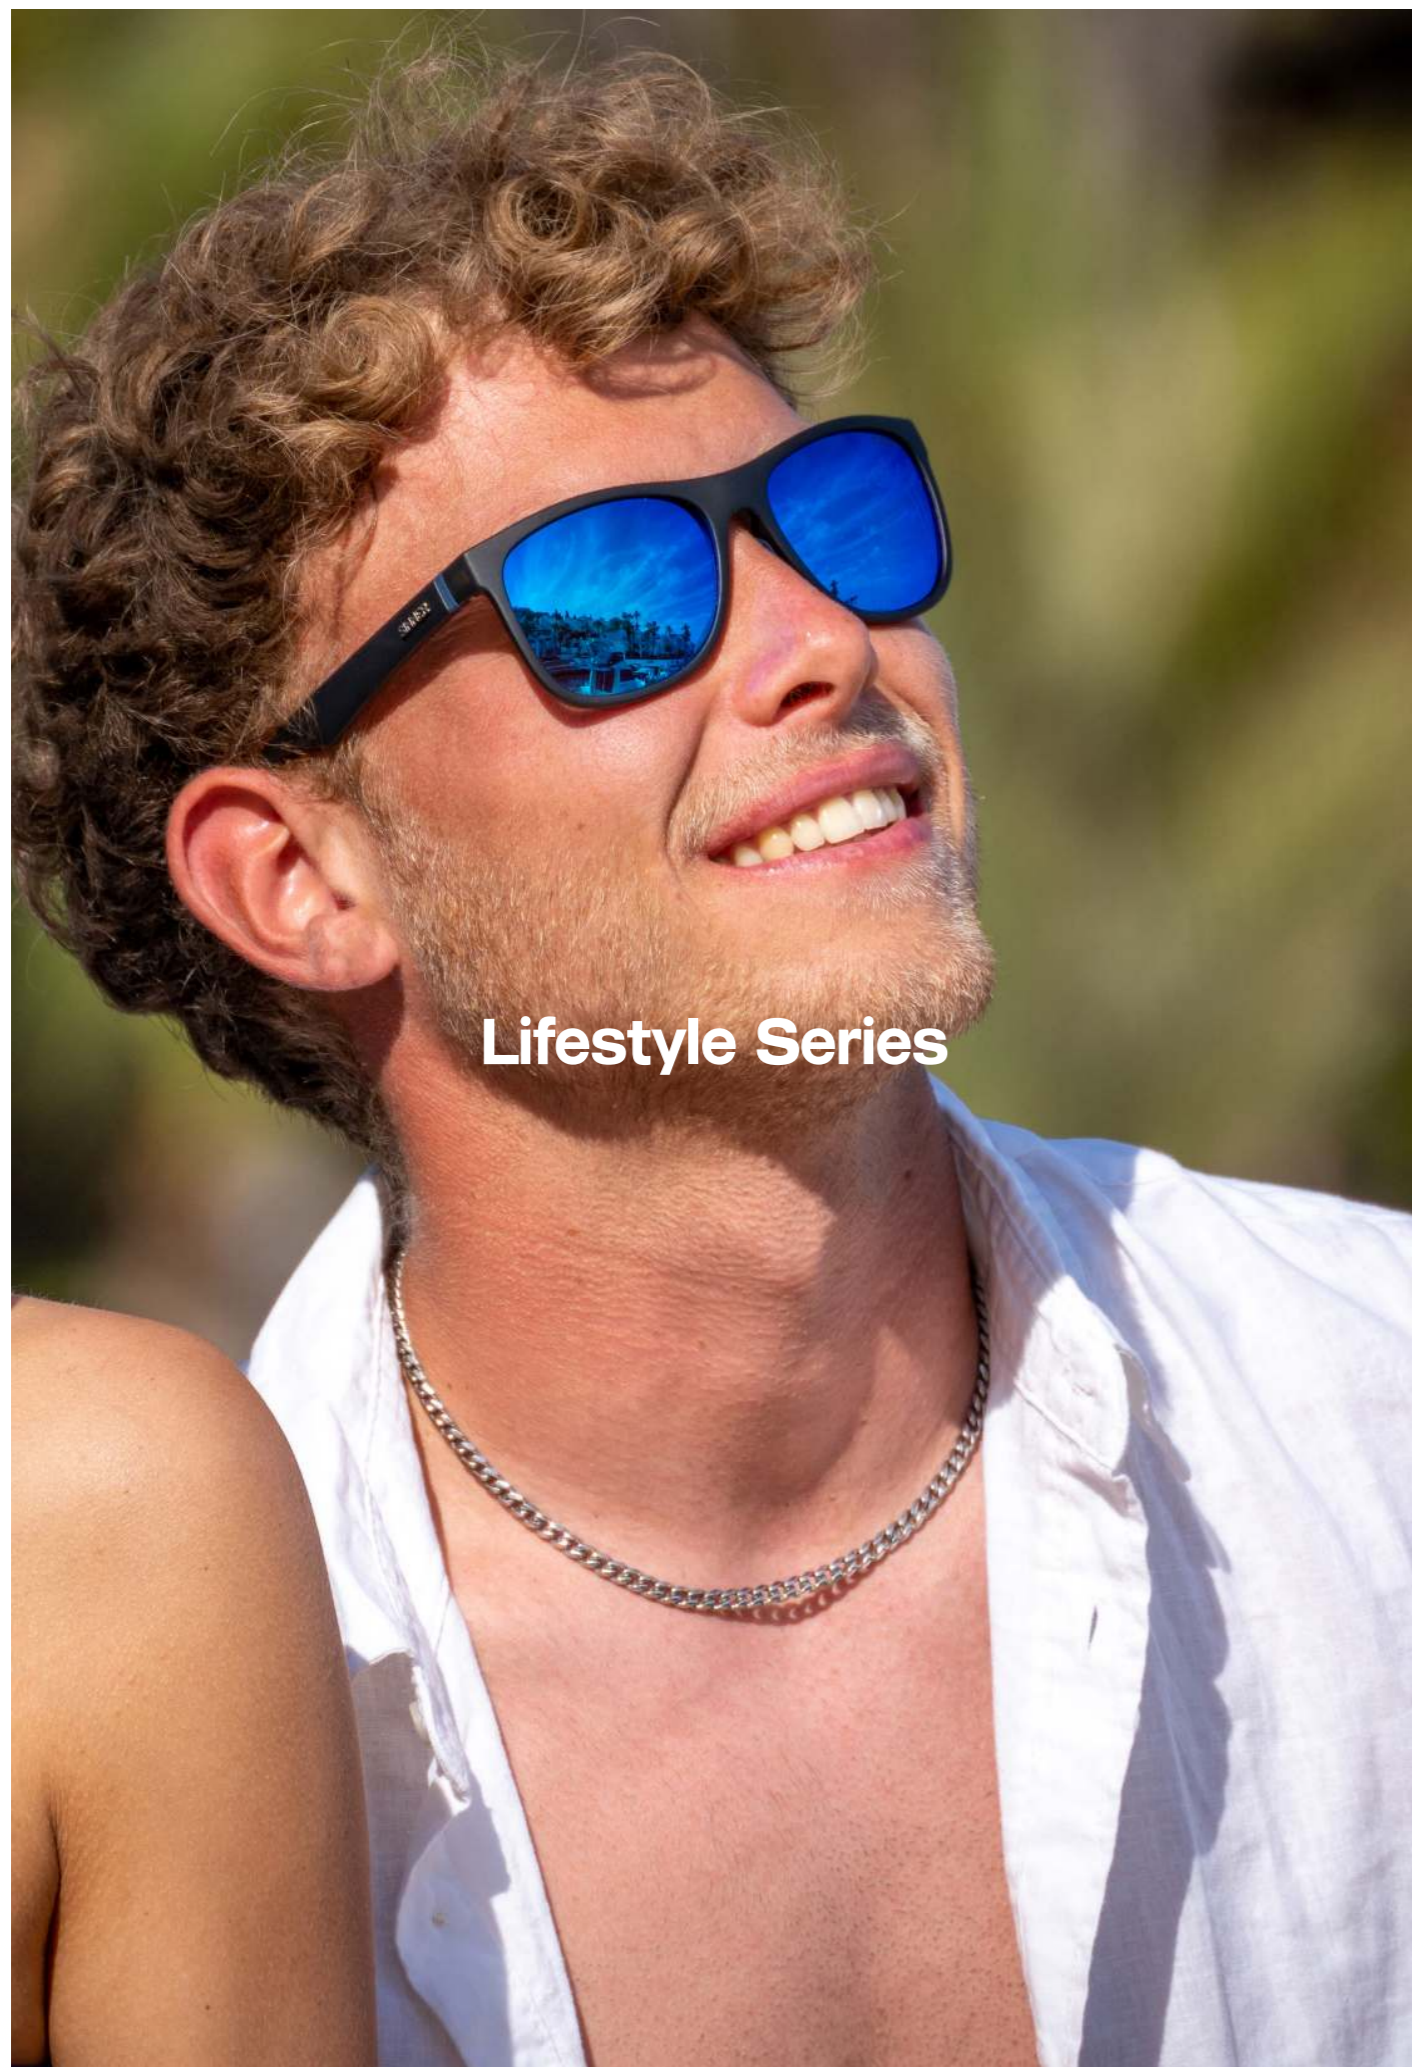

High Contrast Lens

Our sintrast® lens is specially designed for landscapes. This colour filter technology operates as follows: the good colours are turned on and the bad colours off. sintrast® lenses divide the white light into different colours, enhance the sensitive colours and filter the rest, making your vision detailed with a contrast that is not affected by the white light. These lenses give your eyes better visual comfort. Perfect for a long day outside!

A man with long hair tied in a bun, wearing a white t-shirt, is shown in profile against a bright, sunny background of a field with tall grass. He is wearing several accessories: a green and black patterned cord around his neck, a black leather strap on his wrist, and a beaded bracelet. He is adjusting a pair of sunglasses on his face.
