

SINNER AS I AM

SPRING/SUMMER 2027 / DARE TO EXPLORE

SINNER

AS I AM

Who am I?

**I'm not like them. I don't need anyone else to tell me who I am.
I follow my own path and make my own choices.
I am who I want to be, not who others want to see.**

Exactly myself. Just as I am.

**As I am does not mean being indifferent.
It just means that I'm comfortable with being different.
Comfortable with being authentic.**

**I don't judge you by the way you look, act or talk.
I don't judge you by your political, sexual or religious preferences.**

Cause in the end: there's a SINNER in all of us.

About us

SINNER can be found in more than 3,000 stores around the world, including some of the best international department stores, independent shops and online stores. SINNER stands for innovation, quality, performance and style. From Amsterdam, where in the first years we were mainly active as a specialist in sports sunglasses, over the years we have grown into an international lifestyle and sports brand. And we are still growing: nowadays SINNER products are sold in more than 24 countries worldwide.

- SINTEC

Decentered polarized lenses reduce 99,9% of reflected glare
- TRANS+

Photochromic lens provides rapid color change made of high impact Polycarbonate synthetic material
- CONTRAST

The best colour filtering function to enhance the colours requested by specific sports for better performance

SINTEC® Technology

SINTEC® Polarized Lenses

SINTEC® lenses eliminate reflections from flat surfaces, ensuring greater visibility and comfort. This comfortable polarized lens cuts blinding glare while filtering blue light to increase contrast and improve depth perception in a wide variety of weather/light conditions. It also has a softening effect on the eye, reducing eye strain.

FLAT SURFACE REFLECTING LIGHT WAVES

TRANS+® Technology

The Photochromic TRANS+® Lens

The Photochromic TRANS+® lens provides rapid colour change! This high quality lens is made with the most advanced photochromic technology and the best high impact Polycarbonate synthetic material there is. It changes from CAT 1 (clear view) to CAT 3 (Dark view) and vice versa. This ensures that your eyes will receive the best protection in all weather conditions.

Clearest

Provides the clearest vision, rapid clearing when you go inside with flat and low light conditions.

Darkest

TRANS+® lenses become as dark as CAT 3 sunglasses when you are exposed to the bright sunlight and provides 100% UV protection.

Fastest

Changes colour rapidly! The TRANS+® lens is one of the fastest traditional Polycarbonate Photochromic lenses.

Highest performance

The advanced Polycarbonate Photochromic lens provides the highest performance, with the best material and the fastest changing lens from orange to brown and vice versa.

SINTRAST® High Contrast Technology

Key Features

- **Better visual comfort** for all day use
- **Special colour design** for specific environments and conditions you will encounter out
- **Enhance details** of specific target for efficient judgement
- **High contrast** for sharper visual acuity
- **High clarity** for clear vision
- **Eye protection** by filtering 100% UV and high energy of blue light

High Contrast Lens

Our SINTRAST® lens is specially designed for landscapes. Through this colour filter technology the good colours are turned on and the bad colours are turned off. SINTRAST® lenses divide the white light into different colours, enhance the sensitive colours and filter the rest, making your vision detailed with a contrast that is not affected by the white light. These lenses give your eyes better visual comfort. Perfect for a long day outside!

SINNER FREE INSURANCE

Key Features

- **1 Year Free insurance**
- **Against theft, loss and damage**
- **Valid** on SINNER sunglasses and SINNER prescription lenses
- **Online registration** on www.sinner.eu within 14 days after purchase

Sustainable AS I AM

Bio-Based Series

Our new Bio-Based Sunglasses Series are crafted from *Rilsan® Clear* transparent polyamides; Innovative, high-performance materials derived from renewable castor beans. Using up to 45% bio-based content, these frames offer a durable, lightweight, and flexible solution that aligns with our commitment to eco-friendly fashion.

Castor farming supports local communities, utilising marginal soils and avoiding competition with food resources, making it a truly sustainable choice.

The SINNER commitment to style, quality and a greener future.
