SINNER

AS I AM

YEARS
30
THE ANNIVERSARY | EST. 1996

Who am I?

**I'm not like them. I don't need anyone else to tell me who I am.
I follow my own path and make my own choices.
I am who I want to be, not who others want to see.**

Exactly myself. Just as I am.

**As I am does not mean being indifferent.
It just means that I'm comfortable with being different.
Comfortable with being authentic.**

**I don't judge you by the way you look, act or talk.
I don't judge you by your political, sexual or religious preferences.**

Cause in the end: there's a SINNER in all of us.

About us

SINNER can be found in more than 3,000 stores around the world, including some of the best international department stores, independent shops and online stores. SINNER stands for innovation, quality, performance and style. From Amsterdam, where in the first years we were mainly active as a specialist in sports sunglasses, over the years we have grown into an international lifestyle and sports brand. And we are still growing: nowadays SINNER products are sold in more than 24 countries worldwide.

SINNER AS I AM
Registered trademark since 1996

Helmets

Ultimate protection for fearless adventures

Size & Measurements

Sizing & How to fit

- 1. In-Mold Technology** The in-mold technology ensures that the helmet is very light in weight, ensuring maximum protection and comfort.
 - **Double In-Mold Technology** Enhances durability and protection by fusing two layers directly to the foam liner for improved impact resistance and a lightweight design.
 - **Triple In-Mold Technology** Enhances durability and protection by fusing three layers directly to the foam liner for improved impact resistance and a lightweight design.
 - **Hardshell ABS** The ABS (hard shell) outer shell is designed for better impact resistance and therefore provides extra safety.

- 2. Helmet Ventilation** Active helmet ventilation is adjustable ventilation that you can slide open or close yourself to regulate the heat.

- 3. Shock Absorbing Lining** The breathable and light lining has a shock- absorbing effect and provides extra safety and comfort.

- 4. Goggle Holder** This secures the goggle strap on both sides of the helmet and when the goggle is lifted on to the top of helmet between runs.

- 5. Size Adjuster** By adjusting the dial at the rear of the helmet, the fit can be optimised as desired.

- 6. Quick Release System** This provides an easy to use click closure under the chin.

- 7. Sculpted Earpads** Keep your ears nice and toasty. Our removable ear pads provide comfort and warmth on those chilly rides.

HELMET SIZES

Wearing a proper-fitting helmet is the single most impactful thing you can do to prevent yourself from sustaining a serious injury while skiing or snowboarding. In the event of a nasty spill, or even just a minor slip up on the mountain, a helmet that is too large or too small will not adequately protect you. It's simply not worth it to risk injury because the helmet you have is a poor fit, so we are here to give you some tips on how to correctly fit a ski or snowboard helmet.

HOW TO MEASURE?

Wrap a flexible tape measure around your head approximately one inch above the eyebrows and ears. Use this measurement to find your helmet size in the sizing chart.

SIZING INSTRUCTION

Your helmet should fit snugly and comfortably on your head. Once straps and pads are adjusted to the proper fit, grab helmet and twist. The skin on your forehead should move with the helmet.

Helmet Size Chart

Size	CM	Inch
S	50-54	19,7-21,3
M	55-58	21,7-22,8
L	59-62	23,2-24,4
XL	61-64	24,8-25,2

Goggle Features

OTG **Over The Glasses**
SINNER OTG ski/snowboard goggles make it possible to wear your daily glasses under your ski/snowboard goggles.

OS **Outrigger System**
Provides in combination with the ski helmet a comfortable and consistent fit.

VENT **Frame Ventilation**
Openings on the front of the frame provide extra ventilation. These keep the inner lens warm and dry to minimize condensation.

VENT **Lens Ventilation**
Provides extra ventilation. Keeps the inner lens warm and dry to minimize condensation.

All of our goggles are equipped with:

- 
Helmet Compatible
All of our goggles and helmets fit together seamlessly, with matching contours and vents.
- 
Adjustable Strap
The adjustable strap contributes to the total support of the goggles on the head or helmet. Ultra wide and easy to adjust in length.
- 
Hypoallergenic Foam
Falls directly on the face, ensures a perfect and comfortable fit and protection against wind, cold and snow and reduces the risk of allergic reactions.
- 
Anti Slip Strap
Ensures that the ski/snowboard goggles stay in place, especially when using a ski/snowboard helmet.
- 
Double Lens
The double lens provides an extra layer of air between the lenses, bridging the temperature difference and reducing condensation on the inner lens.
- 
Anti-Fog Coating
Before our goggle lens is assembled the inner lens material is coated with an anti-fog treatment that permanently adheres to the inner lens surface to help prevent fogging.
- 
Contrast Enhancing
All our goggle lenses are equipped with advanced contrast enhancement for clear and crisp vision.
- 
Magnetic Lens
These lenses have magnetic attachment to the frame.

Different Lens types

 <p>Orange Lens VLT 18-43% Used in low light conditions, snow and light fog. Increases contrast.</p>	 <p>Pink Lens VLT 62% Used in low light conditions, snow and light fog. Brightening effect.</p>	 <p>Smoke Lens VLT 8 - 18% Used in bright and sunny conditions. Provides true colour perception and reduces light.</p>	 <p>Color Mirror Lens VLT 8 - 18% Used in bright and sunny conditions. Enhanced glare protection and maximum visual clarity.</p>
 <p>SINTEC® Polarized Lens VLT 18-43% Used in low to bright light conditions. Reduces glare and reflections, ensuring greater visibility. Increases contrast and depth perception.</p>	 <p>SINTEC® TRANS+® Lens VLT 8 - 80% Used in partly cloudy to sunny conditions. Increases contrast and reduces glare.</p>	 <p>SINTRAST® TRANS+® Lens VLT 8 - 80% Used to any eather conditions, high contrast making your vision not affected by white light.</p>	 <p>SINTRAST® Lens VLT 22-26% Used in partly cloudy to sunny conditions. High contrast lens that reduces glare for a good and clear vision. Super comfortable for your eyes due to the special colour filter technique.</p>

SINTEC® Technology

POLARIZED

SINTEC® Polarized Lenses

SINTEC® lenses eliminate reflections from flat surfaces, ensuring greater visibility and comfort. This comfortable polarised lens cuts blinding glare while filtering blue light to increase contrast and improve depth perception in a wide variety of weather/light conditions. It also has a softening effect on the eye, reducing eye strain.

FLAT SURFACE REFLECTING LIGHT WAVES

TRANS+® Technology

PHOTOCHROMIC

The Photochromic TRANS+® Lens

The Photochromic TRANS+® lens provides rapid colour change! This high quality lens is made with the most advanced photochromic technology and the best high impact Polycarbonate synthetic material there is. It changes from CAT 1 (clear view) to CAT 3 (Dark view) and vice versa. This ensures that your eyes will receive the best protection in all weather conditions.

Clearest

Provides the clearest vision, rapid clearing when you go inside with flat and low light conditions.

Darkest

TRANS+® lenses become as dark as cat.3 sunglasses when you are exposed to the bright sunlight and provides 100% UV protection.

Fastest

Changes colour rapidly! The TRANS+® lens is one of the fastest traditional Polycarbonate Photochromic lenses.

Highest performance

The advanced Polycarbonate Photochromic lens provides the highest performance, with the best material and the fastest changing lens from orange to brown and vice versa.

SINTRAST® High Contrast Technology

HIGH CONTRAST

- **Better visual comfort** for all day use
- **Special colour design** for specific environments and conditions you will encounter out on the mountains
- **Enhance details** of specific target for efficient judgement
- **High contrast** for sharper visual acuity
- **High clarity** for clear vision
- **Eye protection** by filtering 100% UV and high energy of blue light

ORANGE - CAT. 1  **RED** - CAT. 2  **PINK** - CAT. 2  **BLUE** - CAT. 3 

VLT 63-67% Used in cloudy conditions, snow and light fog. High contrast lens that reduces glare for a good and clear vision. Super comfortable for your eyes due to the special colour filter technique.

VLT 22-26% Used in partly cloudy to sunny conditions. High contrast lens that reduces glare for a good and clear vision. Super comfortable for your eyes due to the special colour filter technique.

VLT 22-26% Used in partly cloudy to sunny conditions. High contrast lens that reduces glare for a good and clear vision. Super comfortable for your eyes due to the special colour filter technique.

VLT 13-17% Used in bright and sunny conditions. Enhanced glare protection and maximum visual clarity. Used in bright and sunny conditions. High contrast lens that reduces glare for a good and clear vision. Super comfortable for your eyes due to the special colour filter technique.

Photochromic TRANS+® Lens with High Contrast

PHOTOCHROMIC

HIGH CONTRAST

Our new lens technology combines the rapid colour change from CAT 1 (clear view) to CAT 3 (Dark view) and vice versa, With the colour filter of our Sintrast technology which gives you high contrast dividing light into different colours, making your vision details with a contrast not affected by white light. At the same time, our Trans+ feature gives you the entire range of adjustment based on the weather conditions, giving the spectrum from clear to dark according to the external conditions of the slopes.

Gloves & Mittens

Stay comfortable and in control with superior grip

Gloves & Technology

Gloves vs. Mittens

Gloves, with their individual fingers, offer better dexterity than mittens and are ideal for activities where you need to frequently handle gear, adjust boot buckles and zip zippers. Lightweight gloves are a great choice for aerobic activities, such as cross-country skiing, where your body is generating lots of heat.

Mittens tend to be warmer than gloves because your fingers generate more heat when they're not separated from each other by fabric, as they are with gloves. They aren't as dexterous as gloves but they can still serve you well when you're holding ski poles, carving down the mountain on a snowboard or heading out for a hike in frigid temperatures.

How to measure

To find out your glove size, measure (in centimeters) around your hand with a tape measure just below the knuckles. You should use your dominant hand, the right if you are right-handed, and the left if you are left-handed.

DRY-S® Membrane

The DRY-S® membrane blocks rain, snow and wind on the gloves external surface providing ultimate comfort.

Stops liquid moisture from penetrating, but allows perspiration vapour to escape. Keeps your skin dry and comfortable in most extreme conditions.

DRY
 Waterproof: 2.000 mm
 Breathable: 2.000 g/m2

DRY-S
 Waterproof: 10.000 mm
 Breathable: 6.000 g/m2

DRY-S+
 Waterproof: 10.000 mm

MERINO VS REGULAR WOOL

MERINO WOOL HAS MUCH FINER FIBERS THAN REGULAR WOOL, MAKING IT SOFTER, MORE BREATHABLE, LESS ITCHY, AND BETTER AT INSULATING AGAINST COLD.

REGULAR WOOL IS WARM, DURABLE, AND NATURALLY INSULATING, THOUGH ITS THICKER FIBERS MAKE IT A BIT LESS SOFT AND BREATHABLE THAN FINE MERINO WOOL.

ANATOMICALLY SHAPED SOCKS

ANATOMICALLY SHAPED LEFT AND RIGHT SOCKS FIT EACH FOOT PERFECTLY, ENHANCING COMFORT, SUPPORT, AND REDUCING FRICTION OR BLISTERS DURING MOVEMENT.

- TRANS** Photochromic lens provides rapid color change made of high impact Polycarbonate synthetic material
- CONTRAST** The best colour filtering function to enhance the colours requested by specific sports for better performance

SINTEC® Technology

SINTEC® Polarized Lenses

SINTEC® lenses eliminate reflections from flat surfaces, ensuring greater visibility and comfort. This comfortable polarized lens cuts blinding glare while filtering blue light to increase contrast and improve depth perception in a wide variety of weather/light conditions. It also has a softening effect on the eye, reducing eye strain.

FLAT SURFACE REFLECTING LIGHT WAVES

TRANS+® Technology

The Photochromic TRANS+® Lens

The Photochromic TRANS+® lens provides rapid colour change! This high quality lens is made with the most advanced photochromic technology and the best high impact Polycarbonate synthetic material there is. It changes from CAT 1 (clear view) to CAT 3 (Dark view) and vice versa. This ensures that your eyes will receive the best protection in all weather conditions.

Clearest

Provides the clearest vision, rapid clearing when you go inside with flat and low light conditions.

Darkest

TRANS+® lenses become as dark as CAT 3 sunglasses when you are exposed to the bright sunlight and provides 100% UV protection.

Fastest

Changes colour rapidly! The TRANS+® lens is one of the fastest traditional Polycarbonate Photochromic lenses.

Highest performance

The advanced Polycarbonate Photochromic lens provides the highest performance, with the best material and the fastest changing lens from orange to brown and vice versa.

SINTRAST® High Contrast Technology

Key Features

- ➔ Better visual comfort for all day use
- ➔ Special colour design for specific environments and conditions you will encounter out
- ➔ Enhance details of specific target for efficient judgement
- ➔ High contrast for sharper visual acuity
- ➔ High clarity for clear vision
- ➔ Eye protection by filtering 100% UV and high energy of blue light

High Contrast Lens

Our SINTRAST® lens is specially designed for landscapes. Through this colour filter technology the good colours are turned on and the bad colours are turned off. SINTRAST® lenses divide the white light into different colours, enhance the sensitive colours and filter the rest, making your vision detailed with a contrast that is not affected by the white light. These lenses give your eyes better visual comfort. Perfect for a long day outside!

SINNER FREE INSURANCE

FREE
INSURANCE

Key Features

- ➔ 1 Year Free insurance
- ➔ Against theft, loss and damage
- ➔ Valid on SINNER sunglasses and SINNER prescription lenses
- ➔ Online registration on www.sinner.eu within 14 days after purchase

Sustainable AS I AM

Bio-Based Series

Our new Bio-Based Sunglasses Series are crafted from *Rilsan® Clear* transparent polyamides; Innovative, high-performance materials derived from renewable castor beans. Using up to 45% bio-based content, these frames offer a durable, lightweight, and flexible solution that aligns with our commitment to eco-friendly fashion.

Castor farming supports local communities, utilising marginal soils and avoiding competition with food resources, making it a truly sustainable choice.

The SINNER commitment to style, quality and a greener future.
