PROTECTING AND PROLONGING TIME SPENT OUTDOORS SINCE 1937.

Grangers is a brand built upon a love of unpredictable British weather. Dedicated to enhancing time spent outdoors, and never compromising on performance or eco-responsibility.

Time outdoors matters

Outdoor gear is designed to perform, but without proper care that performance can quickly deteriorate. Cleaning and reproofing not only restores performance but helps to extend product lifespan.

For almost 90 years, Grangers has been developing high-performance aftercare solutions designed to help people get more from their outdoor gear. Manufactured at its custom-built Derbyshire headquarters in England, the brand combines innovation with environmentally-responsible formulations to clean, protect and restore the equipment adventurers rely on.

Innovation is at the heart of the business, and the dedicated Research and Development team ensure that the products are at the forefront of modern chemistries. Researching, developing, testing, stability testing, and reviewing compliance to guarantee products that perform and deliver results worldwide.

Grangers developed the world's first water-based waterproofing treatment in 1937, and its products have been trusted in some of the world's most demanding environments, including helping to protect Sir Edmund Hillary and Tenzing Norgay during the first successful ascent of Mount Everest. In 2007, Grangers became the first aftercare brand in the world to achieve bluesign® System Partner status, reinforcing its long-standing commitment to environmentally-responsible innovation.

Today, Grangers products are sold in over 50 countries worldwide, helping outdoor enthusiasts protect their investment, extend the life of their gear and spend more time doing what they love most. By keeping products performing at their best for longer, Grangers is helping to keep gear in use and out of landfill.

WORLD FIRSTS

WE'RE PROUD TO SAY THAT IN:

1947, we created the first ever water-based protection products.

1953, we supported the first successful Mount Everest summit.

2005, we invented the first and still only 2-in-1 clean and reproof formulation.

2007, we were the first aftercare brand in the world to become a bluesign system partner.

2023, we launched Down Defend, a world-first in hydrophobic bluesign approved down.

2021, we were the first aftercare brand to use Prevented Ocean Plastic in our bottles.

2023, we launched Down Defend a world-first in hydrophobic bluesign approved down.

2024, we became the first official aftercare partner of the RNLI.

2026, we launched a concentrated 2-in-1, one-bottle formulation, taking our 2-in-1 range to the next level after 21 years.

2026, we launched enhanced performance proofers, offering unrivalled air-dry performance and durability.

bluesign

SYSTEM PARTNER

As the first aftercare brand in the world to become a bluesign® System Partner in 2007, Grangers has been paving the blue way for almost 20 years. The bluesign® system is a globally-recognised standard that assesses the environmental impact of Grangers entire production process, resulting in a cleaner, safer and more environmentally-responsible product range.

PFAS FREE

BIODEGRADABLE
according to
OECD 301A

All of Grangers formulations are PFAS-free. Developed in-house, Grangers' Advanced Polymer Technology (APT) delivers durable water-repellency without fluorocarbons, ensuring reliable protection, breathability and long-lasting, highly-durable performance across all outdoor gear.

Certified to OECD 301A, this accreditation simulates the real world-scenario and guarantees that our formulations readily biodegrade, leaving no impact on eco-systems.

ISO 9001 & 14001

ISO 9001 and ISO 14001 accreditation reflect Grangers' commitment to both product quality and environmentally-responsible manufacturing. Manufactured at its Derbyshire, England, headquarters, every Grangers product benefits from complete control throughout the production process, ensuring consistent quality while minimising environmental impact.

Grangers bottles are made from 100% recycled Prevented Ocean Plastic and are fully recyclable. By giving discarded plastic a second life, every bottle helps to reduce waste and prevent plastic from reaching our oceans.

All of Grangers formulations are cruelty-free, with a wide range of vegan-certified products. Our formulations have never been tested on animals, ensuring high-performance aftercare that aligns with the brand's environmentally-responsible values.

The result of a rigorous three-year development and testing process, Grangers Down Defend redefines ultimate performance with eco-responsibility. This technology is an at-source treatment made to clean and proof down so that it can withstand the harshest conditions, maximising warmth, comfort, protection and longevity.

CLOTHING CARE CLEANERS

CONCENTRATED, POWERFUL, YET GENTLE, CLEANING. 25ML PER WASH LOAD, LOW COST PER WASH. REVIVES EXISTING DWR.

PERFORMANCE WASH

This powerful, concentrated, wash-in cleaner, restores the performance of all waterproof clothing, keeping you warmer and drier for longer.

This powerful, wash-in cleaner is formulated specifically for technical garments. Simply use half a cap to clean, remove odours, optimise breathability and revive any existing water-repellency. This residue-free, eco-responsible formula is compatible with all water types and ideal as preparation for reproofing.

Suitable for all fabrics, including GORE-TEX® Brand.

Size : 300ml, 10fl oz, 100ml, 3.38fl oz, 1ltr, 33.8fl oz, 5L, 169fl oz & 10L, 338fl oz

FOOTWEAR + GEAR CLEANER ECO REFILL

Extend the life of the Footwear + Gear Cleaner trigger bottle with Grangers Eco Refill.

This easy-to-use, 100% recyclable pouch refills the entire already-eco bottle and contains 74% less packaging than the trigger bottle.

It's bluesign approved and helps us to reduce our carbon footprint, so with every bottle refilled we can continue to protect the world we all love to explore! #ecograngers.

Suitable for all fabrics, including GORE-TEX® Brand.

ODOUR ELIMINATOR

Quickly eliminates the source of odours that linger on non-washable items, making it ideal for those 'on the go'.

Ideal for every active person, from those who actively commute, want to refresh their kit or sleeping bag between washes, are fed up of smelly trainers or those who need to freshen up their gloves.

This easy-to-use spray neutralises odours, rather than masking them with perfume.

MEMORY+ INSOLE

Memory+ insoles are designed to provide comfort and support to all types of footwear.

5mm memory foam mid-layer to ensure immediate and long-lasting comfort, these insoles include a moisture-wicking Coolmax® DermoDry® top sheet and a felt base for moisture management, added durability and increased stability.

FEATURING:

COOL MAX®

TREK INSOLE

Trek insoles provide enhanced comfort and support for all activities.

Built around a lightweight, low volume, dual-density EVA foam footbed to absorb and disperse shocks. The contoured arch support and a deep heel well provide stability, together with a Coolmax® DermoDry® top sheet to wick away and manage moisture.

FEATURING:

COOL MAX®

STABILITY INSOLE

Stability insoles provide the highest level of protection, support and comfort.

Built on a felt base for breathability and moisture management, the memory foam core adds comfort and combines with a contoured EVA cradle and gel heel inserts for arch support, heel retention and shock protection. Finished with a Coolmax® DermoDry® top sheet to wick away and manage moisture.

FEATURING:

COOL MAX®

RUN INSOLE

Grangers Run Insoles are designed to keep your feet fresh and supported whilst you put them through their paces.

These flexible, cut-to-size insoles offer cushioning and shock absorption to prevent common sports injuries, such as shin splints. The ergonomic design increases the contact surface of the sole, aiding with flat foot correction and supporting your feet to help reduce the pain caused by arch pressure and fatigue.

The deep heel cup prevents slippage, provides ankle support and the padding reduces friction. They're also breathable, durable and moisture-wicking to keep your feet odour-free, fresh and comfortable.
